

Prepared pursuant to the Continuing Disclosure Certificates

Foothill/Eastern Transportation Corridor Agency Toll **Road Refunding Revenue Bonds** Series 2013, 2015, 2019 and 2021

CONTINUING DISCLOSURE REPORT For the Fiscal Year Ended June 30, 2023

Introduction:

On January 2, 2014, the Agency issued \$2,274,616,568 aggregate initial principal amount of Toll Road Refunding Revenue Bonds, Series 2013 (the "2013 Bonds"). The 2013 Bonds were issued pursuant to a Master Indenture of Trust, dated as of December 1, 2013, between the Agency and the Trustee, as supplemented by the First and Second Supplemental Indentures of Trust, dated as of December 1, 2013, between the Agency and the Trustee (such Master Indenture of Trust, as so supplemented, the "2013 Master Indenture").

The 2013 Bonds were issued by the Agency for the purpose of providing funds, to refund the 1999 Bonds, as more fully described in the Official Statement for the 2013 Bonds dated December 12, 2013 (the "2013 Official Statement").

On February 19, 2015, the Agency issued \$87,007,699 aggregate initial principal amount of Toll Road Refunding Revenue Bonds, Series 2015 (the "2015 Bonds"). The 2015 Bonds were issued pursuant to the 2013 Master Indenture, as supplemented by the Third Supplemental Indenture of Trust, dated as of January 1, 2015, between the Agency and the Trustee.

The 2015 Bonds were issued by the Agency for the purpose of providing funds to refund the 1995 Bonds, as more fully described in the Official Statement for the 2015 Bond's dated February 3, 2015 (the "2015 Official Statement").

The Term Rate Bonds (Subseries B-1) were remarketed as required by the 2013 Bonds Indenture. The transaction was completed on August 24, 2017, which locked in lower interest rates on \$125,000,000 of Agency debt through 2053. The interest savings are approximately \$1.3 million each year.

The Term Rate Bonds (Subseries B-2) were remarketed as required by the 2013 Bonds Indenture. The transaction was completed on July 18, 2019, which locked in lower interest rates on \$125,000,000 of Agency debt through 2053. The interest savings are approximately \$1.9 million each year.

On December 19, 2019, the Agency refunded \$820,285,000 of the 2013 Bonds and issued \$897,055,000 of Federally Taxable Toll Road Refunding Revenue Bonds Series 2019A (the "2019 Bonds"). The 2019 Bonds were issued pursuant to the 2013 Master Indenture, as supplemented by the Fourth Supplemental Indenture of Trust, dated as of December 1, 2019, between the Agency and the Trustee. The 2019 Bonds are more fully described in the Official Statement for the 2019 Bonds dated December 10, 2019 (the "2019 Official Statement"). The transaction was completed without extending the maturity date of the bonds and interest savings from the refunding transaction are approximately \$13.5 million per year.

On February 9, 2021, the Agency refunded \$692,205,000 of the 2013 Bonds and issued \$759,772,000 of Bonds split as follows, \$428,202,000 of Senior Lien Toll Road Refunding Revenue Bonds Series 2021A, \$109,555,000 of Senior Lien Federally Taxable Toll Road Refunding Revenue Bonds Series 2021B, \$143,985,000 of Junior Lien Toll Road Refunding Revenue Bonds Series 2021C, and \$78,030,000 of Junior Lien Federally Taxable Toll Road Refunding Revenue Bonds Series 2021D, collectively known as (the "2021 Bonds"). The 2021 Bonds were issued pursuant to the 2013 Master Indenture, as supplemented by the Fifth, Sixth, Seventh and Eighth Supplemental Indentures of Trust,

dated as of February 1, 2021, between the Agency and the Trustee. The 2021 Bonds are more fully described in the Official Statement for the 2021 Bonds dated January 26, 2021 (the "2021 Official Statement"). The transaction was completed without extending the maturity date of the bonds and interest savings from the refunding transaction are approximately \$13.0 million per year.

On July 15, 2022, as part of the Agency's Early Bond Paydown Program, which aligns with the Board of Directors approved Strategic Plan, the Agency completed a \$125,000,000 early paydown of the Term Rate Bond principal (Subseries B-3) which reduced the Agency's future debt service interest payments by approximately \$180 million.

The Open Market Bond Buyback Program, approved by the Board of Directors in January 2023, authorizes the use of up to \$100 million of unrestricted cash to purchase and retire Agency bonds that investors have offered to sell or may be willing to sell. In Fiscal Year 2023, the Agency utilized \$93.0 million of unrestricted cash to purchase and retire \$113.6 million of bond principal which reduced the Agency's future debt service interest payments by approximately \$115.0 million. Open Market Bond Buybacks by bond issuance will be discussed in Section 4.2.

Pursuant to Rule 15c2-12(b)(5) of the Securities and Exchange Commission, the Agency has executed a Continuing Disclosure Certificate, dated as of January 2, 2014 (amended and restated February 19, 2015, July 18, 2019, December 19, 2019, and February 9, 2021), for the 2013, 2015, 2019 and 2021 Bonds, respectively (the "Continuing Disclosure Certificate"). The Continuing Disclosure Certificate states that the Agency shall provide not later than January 15 of each year to each Repository (as defined in the Continuing Disclosure Certificate) a Disclosure Report relating to the immediately preceding fiscal year. The Disclosure Report is to contain certain data related to the Agency, the Toll Road, the 2013 Bonds, the 2015 Bonds, the 2019 Bonds and the 2021 Bonds.

The information contained in this report constitutes all disclosure required pursuant to the Continuing Disclosure Certificate. Capitalized terms used herein and not otherwise defined shall have the meanings assigned to such terms in the Official Statement.

Disclosure Information:

Section 4.1 – The audited financial statements of the Agency for the prior Fiscal Year, prepared in accordance with generally accepted accounting principles as promulgated to apply to governmental entities from time to time by the Governmental Accounting Standards Board.

See audited financial statements for the fiscal year ended June 30, 2023 attached.

Section 4.2 – Principal amount of Bonds of each Series outstanding under the 2013 Master Indentures.

On January 2, 2014, the Agency issued \$2,274,616,568 aggregate initial principal amount of the 2013 Bonds and used the proceeds to refund the 1999 Bonds. Subsequent to that date bond transactions described above in the Introduction and below occurred. As of June 30, 2023, the bonds consist of the following: \$60,000,000 principal amount of Series 2013A Current Interest Bonds; \$346,666,559 Series 2013A Convertible Capital Appreciation Bonds; \$184,623,256 Series 2013A Capital Appreciation Bonds; and \$248,000,000 Series 2013B Term Rate Current Interest Bonds. Through the Open Market Bond Buyback Program, \$2,000,000 of the 2013 Term Rate Subseries B-1 were retired in Fiscal Year 2023, which is reflected in the Series 2013B Term Rate Current Interest Bonds balance noted above.

On February 19, 2015, the Agency issued \$87,007,699 aggregate initial principal amount of 2015 Bonds and used the

proceeds to refund the 1995 Bonds. Through the Open Market Bond Buyback Program, \$16,500,000 of bond principal was purchased and retired in Fiscal Year 2023. As of June 30, 2023 the accreted value of the 2015 Bonds was \$113,732,049.

On December 19, 2019, the Agency issued \$897,055,000 aggregate initial principal amount of the 2019 Bonds to refund a portion of the Agency's outstanding 2013 Bonds. The 2019 Bonds are more fully described in the 2019 Official Statement. Through the Open Market Bond Buyback Program, \$92,830,000 of bond principal was purchased and retired in Fiscal Year 2023. As of June 30, 2023 the outstanding balance was \$804,225,000.

On February 9, 2021, the Agency issued \$759,772,000 aggregate initial principal amount of the 2021 Bonds to refund a portion of the Agency's outstanding 2013 Bonds. The 2021 Bonds are more fully described in the 2021 Official Statement. Through the Open Market Bond Buyback Program, \$2,315,000 of bond principal was purchased and retired in Fiscal Year 2023. As of June 30, 2023 the outstanding balance was \$757,271,000.

Additional information can be found in the Agency's audited financial statements.

Section 4.3 – A statement of the Senior Lien Bonds Reserve Fund Requirement, the balance in the Senior Lien Bonds Reserve Fund and the amount of the Senior Lien Bonds Reserve Fund Requirement (if any) that is funded with a letter of credit, surety bond, or insurance policy, as provided by the 2013 Master Indenture; and a statement of the Junior Lien Bonds Reserve Fund Requirement, the balance in the Junior Lien Bonds Reserve Fund and the amount of the Junior Lien Bonds Reserve Fund Requirement (if any) that is funded with a letter of credit, surety bond, or insurance policy, as provided by the 2013 Master Indenture.

The Senior Lien Bonds Reserve Fund Requirement is \$200,957,376.

The total amount available to meet the Senior Lien Bonds Reserve Fund Requirement on June 30, 2023 was \$202,500,540 in cash and investments at cost as required by the indentures. The market value as of June 30, 2023 was \$194,751,314.

The Junior Lien Bonds Reserve Fund Requirement is \$19,805,000.

The total amount available to meet the Junior Lien Bonds Reserve Fund Requirement on June 30, 2023 was \$19,974,429 in cash and investments at cost as required by the indentures. The market value as of June 30, 2023 was \$19,178,813.

Section 4.4 – A statement of the Use and Occupancy Fund Requirement under the 2013 Master Indentures, the balance of the Use and Occupancy Fund, the amount of the Use and Occupancy Fund Requirement (if any) that is funded with an insurance policy as provided by the 2013 Master Indenture, and, if applicable, a brief description of such insurance policy (including self-insurance retention requirement applicable to such insurance policy).

The Use and Occupancy Fund Requirement under the 2013 Indentures is \$15,000,000 of which at least \$10,000,000 must be held in cash and investments. As of June 30, 2023, the fund consisted of \$15,130,181 in cash and investments at cost as required by the indentures. The market value as of June 30, 2023 was \$14,520,498. As the cash and investments held in the Use and Occupancy Fund satisfy the full requirement, no insurance policy is held for this purpose.

Section 4.5 – Statement of the balance in the Revenue Guarantee Fund.

The Revenue Guarantee Fund was structured to cover a portion of the debt service payments in fiscal years 2016-2018, only in the event that revenues were insufficient. No Revenue Guarantee funds were needed for debt service payments. As of June 30, 2023, the balance in the Revenue Guarantee Fund remained \$0.

Section 4.6 – Updated Fiscal Year information for the table entitled "HISTORICAL FISCAL YEAR TRAFFIC AND GROSS TRANSACTIONAL TOLL REVENUES" in the section of the Official Statement entitled "THE FOOTHILL/EASTERN SYSTEM - Toll Transactions, Gross Transactional Toll Revenues and Net Collectible Tolls."

Fiscal Year Ending June 30	2019	2020 (1)	2021 (1)	2022 (1)		2023 (1)
Annual Transactions	69,219,945	58,652,310	50,456,472	60,891,103		63,422,901
Change Over Previous Year	0.2%	-15.3%	-14.0%	20.7%		4.2%
Average Weekday Transactions	217,094	181,273	147,785	182,245		191,668
Change Over Previous Year	0.5%	-16.5%	-18.5%	23.3%		5.2%
Average Toll Rate (2)	\$ 2.39	\$ 2.71	\$ 2.79	\$ 2.84	\$	2.92

Annual Gross Transactional Toll Revenues	\$ 165,231,121	\$ 158,858,549	\$ 140,668,814	\$ 172,751,577	\$	185,100,388
Change Over Previous Year	2.0%	-3.9%	-11.5%	22.8%	·	7.1%

⁽f) The COVID-19 pandemic impacted the results. The Agency experienced a sharp drop off in transactions when the Governor of California issued a shelter in place order on March 19, 2020. However, after the initial drop off, transactions began a steady climb in April 2020 and the recovery continued through Fiscal Year 2023.

Beginning in Fiscal Year 2019, the Transportation Corridor Agencies implemented new transponder technology (the "6C System") consisting of a sticker to be adhered to the inside of the vehicle's windshield in place of the hardcase transponders. All ExpressAccounts were converted to FasTrak accounts. FasTrak accountholders are able to pay tolls by: (i) making a prepayment by credit card, cash or check to fund a prepaid account from which tolls incurred will be deducted; (ii) maintaining a valid credit card or bank account on file from which tolls incurred will be deducted; or (iii) opting for periodic invoices for tolls incurred which invoices will be due immediately upon receipt. For prepaid FasTrak accounts, when the balance of prepaid tolls in a customer's account falls below a minimum threshold, depending on the arrangement with the motorist, the Transportation Corridor Agencies either notify the customer and request a replenishment payment or charge the customer's credit card account to replenish the toll prepayment account. The Transportation Corridor Agencies' prepaid FasTrak accountholders earn discounts of \$1 per transaction if the account incurred more than \$40 in tolls (excluding discounts) within the Foothill/Eastern and San Joaquin Hills Transportation Corridors during the prior month.

Under the FasTrak transponder-based toll collection, a transponder-equipped vehicle passes through each toll plaza, the system identifies the account and the customer will be charged depending on the account type described in the preceding paragraph. Since July 1, 2019, existing or new FasTrak accountholders are still able to purchase hardcase switchable transponders that are not necessary within the Foothill/Eastern and San Joaquin Hills Transportation

⁽²⁾ The Average Toll Rate increased from Fiscal Year 2019 to 2020 due to the rate increase by the Agency as well as change in the Agency's discount program. See further discussion of the discount program below.

Corridors and are only necessary to take advantage of occupancy discounts offered on some of the express lane facilities in the State.

Under the 6C System, a payment option is still available for infrequent users who contact the Agency via the Agency's website, mobile app or by telephone within a short period after driving the road to pay tolls incurred. Transactions which are not associated with a FasTrak account and not paid within a short period after driving the road are subject to the violation process.

The transponders currently in use on the Foothill/Eastern and San Joaquin Hills Transportation Corridors are designed to meet the Caltrans standard specification for electronic toll facilities in the State. California law also requires that such transponders have interoperability capabilities with other toll collection and revenue management systems that may be established in the State. The 6C sticker transponders are interoperable with all tolled facilities in the State.

Section 4.7 – Updated Fiscal Year information for the table entitled "HISTORICAL FISCAL YEAR GROSS TRANSACTIONAL TOLL REVENUES AND NET COLLECTIBLE TOLLS" in the section of the Official Statement entitled "THE FOOTHILL/EASTERN SYSTEM – Net Collectible Tolls."

Fiscal Year Ending June 30		2019	2020 ⁽⁴⁾ 2021 ⁽⁴⁾		2022(4)			2023 ⁽⁴⁾	
Gross Transactional Toll Revenue (1)	\$	165,231,121	\$	158,858,549	\$ 140,668,814	\$	172,751,577	\$	185,100,388
Less Non-Pursuable Transactions (2)	\$	(5,169,520)	\$	(1,274,400)	\$ (1,067,043)	\$	(1,174,817)	\$	(1,269,724)
Less Processable Transactions	\$	(8,881,839)	\$	(7,974,111)	\$ (7,996,450)	\$	(9,600,497)	\$	(10,363,559)
Toll Revenue from Violations	\$	6,623,135	\$	5,310,628	\$ 4,910,721	\$	7,398,047	\$	6,755,048
Less Non-Revenue Transactions (3)	\$	(387,474)	\$	(321,400)	\$ (227,918)	\$	(521,623)	\$	(537,830)
Loss Due to Fire (1)	\$		\$_		\$ (267,050)	\$		\$	
Net Collectible Tolls	<u>\$</u>	157,415,423	<u>\$</u>	154,599,266	\$ 136,021,074	<u>\$</u>	168,852,687	<u>\$</u>	179,684,323
% of Gross Transactional Toll Revenue		95.3%		97.3%	96.7%		97.7%		97.1%

⁽¹⁾ In Fiscal Year 2021 Gross Transactional Toll Revenue includes the estimated loss revenue due to the Silverado Fire of \$1.9 million. The Loss Due to Fire represents the portion of the estimated lost revenue that was not recovered through insurance.

Section 4.8 – A Statement of Violation Penalty Revenues accrued for the Fiscal Year

Violation Penalty Revenue accrued for the fiscal year ended June 30, 2023 was \$30,434,104. Violation Penalty Revenue is recognized when earned.

Section 4.9 – A statement of Account Maintenance Fees accrued for the Fiscal Year, as well as the number of accounts and transponders for such Fiscal Year.

Prior to the commencement of Fiscal Year 2020, the Transportation Corridor Agencies charged a monthly fee of \$2.00 per transponder to FasTrak accountholders if monthly tolls incurred on the Transportation Corridor Agencies' facilities were less than \$25 per transponder. In Fiscal Year 2019, account maintenance fees were \$9,835,594.

⁽²⁾ The decrease in Fiscal Year 2020 is related to a California law effective January 1, 2019, that requires all new vehicles sold to have temporary license plates.

⁽³⁾ Transactions resulting from various entities that are not obligated to pay toll revenues (i.e. police), as well as U.S. GAAP accounting adjustments.

⁽⁴⁾ The COVID-19 pandemic impacted the results. The Agency experienced a sharp drop off in transactions when the Governor of California issued a shelter in place order on March 19, 2020. However, after the initial drop off, transactions began a steady climb in April 2020 and the recovery continued through Fiscal Year 2023.

Effective July 1, 2019, the Transportation Corridor Agencies implemented a new transponder technology as approved by regulatory changes in California (see further discussion in Section 4.6). In connection with the implementation of the new sticker transponders, which are less expensive to acquire and maintain than the hardcase transponders, the Transportation Corridor Agencies eliminated account maintenance fees. While account maintenance fee revenues were eliminated, the reduced expenses in obtaining and maintaining the new sticker transponders and the revised discount program for the Transportation Corridor Agencies' prepaid FasTrak accountholders (discussed in Section 4.6) resulted in an overall positive effect on the Agency's finances. The existing hardcase transponders issued to FasTrak accountholders were replaced with sticker transponders to be adhered on the inside of a vehicle's windshield and all ExpressAccounts have been converted to FasTrak accounts, thereby allowing all accounts to be interoperable and pay tolls on any California toll facility. Hardcase transponders held by existing accountholders still continue to operate. The total number of FasTrak accounts for the Foothill Eastern and San Joaquin Hills Transportation Corridor Agencies combined was 2,336,001 at June 30,2023, and all such accounts had at least one transponder.

Section 4.10 – Statistical data summarizing the use of the AVI collection system on the Foothill/Eastern System, including the percentage of toll transactions that are AVI transactions and the overall level of accuracy of the toll collection system.

Fiscal Year Ending June 30	2019	2020 (1) 2021 (1)		2022 (1)	2023 (1)
AVI Transactions	64,633,907	55,708,959	47,543,280	57,494,375	59,887,333
Total Transactions	69,219,945	58,652,310	50,456,472	60,891,103	63,422,901
AVI %	93.4%	95.0%	94.2%	94.4%	94.4%

¹⁾ The COVID-19 pandemic impacted the results. The Agency experienced a sharp drop off in transactions when the Governor of California issued a shelter in place order on March 19, 2020. However, after the initial drop off, transactions began a steady climb in April 2020 and the recovery continued through Fiscal Year 2023.

The Transportation Corridor Agencies toll collection and revenue management system is the Infinity Digital Lane System ("Infinity System"). Using common transponders, license plate readers, a centralized computer system and common personnel, the Infinity System utilizes mechanisms for separate usage-based revenue collection and cost allocation among the Agency and the San Joaquin Hills Transportation Corridor Agency. The Infinity System was designed by and is operated and maintained by TransCore, a Tennessee-based corporation.

By contract, the Infinity System is required to achieve an accuracy level of at minimum 99.5% readable plates. The Infinity System has met the minimum requirements.

Section 4.11 – A statement of Development Impact Fees accrued for the Fiscal Year.

Development Impact Fees accrued for the fiscal year ended June 30, 2023 was \$9,285,075.

Section 4.12 - Updated Fiscal Year information for the table entitled "Current Expenses" in the section of the Official Statement entitled "THE FOOTHILL/ EASTERN SYSTEM - Current Expenses."

Fiscal Year Ending June 30	2	019	2	020 ⁽¹⁾	2	021 ⁽²⁾	2	022 ⁽³⁾	2	023(4)	2024 ⁽⁵⁾ (Budgeted

⁽¹⁾ Decreases reflect the effects of COVID-19 outbreak on costs associated with traffic and revenue. The COVID-19 pandemic impacted the results for Fiscal Year 2020. The Agency experienced a sharp drop off in transactions when the Governor of California issued a shelter in place order on March 19, 2020. However, after the initial drop off, transactions began a steady climb in April 2020 as the economy in California began to open again.

⁽²⁾ Decrease reflects continuing effects of COVID-19 outbreak on costs associated with traffic and revenue, as well as administration costs that are only incurred as needed. Equipment and Capital Expenditures are lower due to the timing of the back-office system replacement project.

⁽³⁾ Increase is primarily associated with the increase in traffic and revenue.

⁽⁴⁾ Increase is primarily associated with the increase in traffic and revenue.

⁽⁵⁾ Increase mainly reflects the costs associated with the budgeted increase in traffic and revenue as well as the costs included in the budget that are only incurred on an as needed basis. Toll Equipment and Capital Expenditures budgeted increase related to the timing of the back-office system replacement project. Also included are the costs of San Bernardino County Transportation Authority (SBCTA) Express Lanes transaction and violation processing services expected to occur in the second half of Fiscal Year 2024, for which SBCTA will a pay the Agency a fee.

Section 4.13 – Updated Fiscal Year information for the table entitled "HISTORICAL OPERATING REVENUES AND DEBT SERVICE COVERAGE" in the section of the Official Statement entitled "THE FOOTHILL/EASTERN SYSTEM - Historical Operating Revenues and Debt Service Coverage."

⁽¹⁾ Account Maintenance Fees were eliminated July 1, 2019. Please see further discussion in Section 4.9.

⁽²⁾ As per indenture, equals DIF revenue in excess of \$5 million.

⁽³⁾ The Fiscal Year 2021 budget was very conservative due to the uncertain impact of the COVID-19 pandemic on the Agency's revenues. As such, this cash deposit was made to ensure the conservative Fiscal Year 2021 budget met the indenture debt service requirements. Based on the financial results of Fiscal Year 2021, the \$18M cash deposit was not necessary to meet the debt service coverage requirement and the funds have been returned to the Agency's unrestricted cash fund. Excluding the \$18M cash deposit that was returned to the unrestricted cash fund, the debt service coverage ratios would have been 1.72 and 1.53 for Senior and Aggregate Coverage Ratios, respectively.

⁽⁴⁾ Fiscal Year 2020 increase from prior year reflects rate increase by the Agency as well as change in the Agency's discount program. See further discussion of the change in the discount program in Section 4.6.

⁽⁵⁾ Per the Audited Financial Statements. Not pledged to the payment of the Bonds. The decrease in Fiscal Year 2022 reflects the June 2022 transfer of \$125 Million to the trustee bank for the early repayment of bonds on July 15, 2022. In Fiscal Year 2023, even though the Agency's Open Market Bond Buyback Program utilized \$93.0 million of unrestricted cash to purchase and retire \$113.6 million of bond principal which reduced the Agency's future debt service interest payments by approximately \$115.0 million, the unrestricted funds balance at year end has remained consistent with Fiscal Year 2022.

⁽⁶⁾ The COVID-19 pandemic impacted the results. The Agency experienced a sharp drop-off in transactions when the Governor of California issued a shelter in place order on March 19, 2020. However, after the initial drop-off, transactions began a steady climb in April 2020 and the recovery continued through Fiscal Year 2023.

Section 4.14 – Updated Fiscal Year information for the table entitled "Current Expenses for Toll Operations" in the section of the Official Statement entitled "THE FOOTHILL/ EASTERN SYSTEM -FY 2013-14 Results and FY 2014-15 Budget-Management Discussion of FY 2013-14 and FY 2014-15 **Budget and Performance-Current Expenses for Toll Operations."**

See table in Section 4.12

Section 4.15 – Updated Fiscal Year information for the table entitled "Future Capital Project Costs" in the section of the Official Statement entitled "THE FOOTHILL/EASTERN SYSTEM-Capital Improvement Program-Other Capital Projects.

See attached "Fiscal Year 2024 Capital Improvement Plan" presented to the Board of Directors on June 8, 2023.

Section 4.16 – Updated actual Fiscal Year information corresponding to the projections in the table in the section entitled "PROJECTED REVENUES AND REVENUE REQUIREMENTS."

See table in Section 4.13

Section 4.17 – A description of any damage to the Foothill/Eastern System or the toll collection system during the past Fiscal Year, which in the determination of the Agency will result in a material reduction in Net Toll Revenues.

During the fiscal year ended June 30, 2023, no damage occurred to the Toll Road or the toll collection system, which, in the determination of the Agency, resulted in a material reduction in Net Toll Revenues.

Section 5 – Reporting of Significant Events

On July 15, 2022, as part of the Agency's Early Bond Paydown Program, which aligns with the Board of Directors approved Strategic Plan, the Agency completed a \$125,000,000 early paydown of the Term Rate Bond principal (Subseries B-3) which reduced the Agency's future debt service interest payments by approximately \$180 million.

The Open Market Bond Buyback Program, approved by the Board of Directors in January 2023, authorizes the use of up to \$100 million of unrestricted cash to purchase and retire Agency bonds that investors have offered to sell or may be willing to sell. In Fiscal Year 2023, the Agency utilized \$92.3 million of unrestricted cash to purchase and retire \$113.6 million of bond principal which reduced the Agency's future debt service interest payments by approximately \$115.0 million. Open Market Bond Buybacks by bond issuance are discussed in Section 4.2.

There was a rating change for the Senior and Junior Lien Bonds from Fitch Ratings on January 30, 2023, which upgraded the Senior Lien Bonds from BBB to BBB+ with a positive outlook and the Junior Lien Bonds from BBB- to BBB with a positive outlook.

Subsequent to the date of this report, on October 19, 2023, there was a rating change for the Senior and Junior Lien Bonds from Moody's Investor Service, which upgraded the Senior Lien Bonds from Baa2 to Baa1 with a stable outlook and the Junior Lien Bonds from Baa2 to Baa1 with a stable outlook.

As of June 30, 2023, none of the following events have occurred with respect to the 2013, 2015, 2019 and 2021 Bonds except as noted above:

- 1. Principal and interest payment delinquencies;
- 2. Non-payment related defaults, if material;
- 3. Unscheduled draws on debt service reserves reflecting financial difficulties;
- 4. Unscheduled draws on credit enhancements reflecting financial difficulties;
- 5. Substitution of credit or liquidity providers, or their failure to perform;
- 6. Adverse tax opinions, the issuance by the Internal Revenue Service of proposed or final determinations of taxability, Notices of Proposed Issue (IRS Form 5701-TEB) or other material notices or determinations with respect to the tax status of the 2013, 2015, 2019 and 2021 Bonds, or other material events affecting the tax status of the Series 2013, 2015, 2019 and 2021 Bonds;
- 7. Modifications to rights of 2013, 2015, 2019 and 2021 Bond holders, if material;
- 8. 2013, 2015, 2019 and 2021 Bond calls, if material, and tender offers;
- 9. Defeasances;
- 10. Release, substitution or sale of property securing repayment of the 2013, 2015, 2019 and 2021 Bonds, if material;
- 11. Rating Changes
- 12. Bankruptcy, insolvency, receivership, or similar event of the Agency. For purposes of this event the event is considered to occur when any of the following occur: the appointment of a receiver, fiscal agent or similar officer for the Agency in a proceeding under the U.S. Bankruptcy Code or in any other proceeding under state or federal law in which a court or governmental authority has assumed jurisdiction over substantially all of the assets or business of the Agency, or if such jurisdiction has been assumed by leaving the existing governing body and officials or officers in possession but subject to the supervision and orders of a court or governmental authority, or the entry of an order confirming a plan of reorganization, arrangement or liquidation by a court or governmental authority having supervision or jurisdiction over substantially all of the assets or business of the obligated person;
- 13. Consummation of a merger, consolidation, or acquisition involving the Agency or the sale of all or substantially all of the assets of the Agency (other than in the ordinary course of business), the entry into a definitive agreement to undertake such an action or the termination of a definitive agreement relating to any such actions, other than pursuant to its terms, if material;
- 14. Appointment of a successor or additional Trustee, or the change of name of a Trustee, if material; and
- 15. Introduction or passage of any amendment to the Act.
- 16. Incurrence of a financial obligation, if material, or agreement to covenants, events of default, remedies, priority rights, or other similar terms of a financial obligation, any of which affect security holders, if material;
- 17. Default, event of acceleration, termination event, modification of terms, or other similar events under the terms of a financial obligation of the obligated person, any of which reflect financial difficulties.

INDEPENDENT AUDITOR'S REPORT

Board of Directors Foothill/Eastern Transportation Corridor Agency Irvine, California

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of the Foothill/Eastern Transportation Corridor Agency ("Agency"), as of and for the years ended June 30, 2023 and 2022, and the related notes to the financial statements, which collectively comprise the Agency's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the financial position of the Agency, as of June 30, 2023 and 2022, and the changes in financial position and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Agency, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter

As discussed in Notes 2 and 9 to the financial statements, during the year ended June 30, 2023, the Agency adopted new accounting guidance, GASB Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*. The adoption resulted in recording a right-of-use asset and a public-public partnership (PPP) liability. Net position as of June 30, 2022 and for the year then ended was restated by \$5,663,743 as a result of adoption. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Agency's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

1

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to
 fraud or error, and design and perform audit procedures responsive to those risks. Such procedures
 include examining, on a test basis, evidence regarding the amounts and disclosures in the financial
 statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures
 that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
 effectiveness of the Agency's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Agency's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedule of net pension liability and related ratios, and schedule of Agency contributions, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management's Discussion and Analysis

June 30, 2023 and 2022

(In thousands)

This discussion and analysis of the financial performance of the Foothill/Eastern Transportation Corridor Agency (the Agency) provide an overview of the Agency's financial activities for the fiscal years ended June 30, 2023 and 2022. Please read it in conjunction with the Agency's financial statements and accompanying notes.

Background

The Agency was formed in 1986 as a joint powers authority by the County of Orange and cities in Orange County, California to provide traffic relief to Orange County through the construction and operation of toll roads. The Agency was created to plan, design, finance, construct, and operate the Foothill (State Route 241) and Eastern (State Route 241, State Route 261, and State Route 133) toll roads. The Agency's primary focus is the operation of the facilities and collection of tolls to repay the tax-exempt revenue bonds that were issued to construct the toll roads.

Planning began in the 1970s when local transportation studies identified the need for new highways, including the Foothill and Eastern Transportation Corridors (State Route 241, State Route 261, and State Route 133), to serve Orange County's growing population. In the early 1980s, the corridor was envisioned as a free highway funded through state or federal gas-tax revenue, but with a shortage of gas-tax revenue to fund transportation improvements and increasing costs of building new roads, local officials began to study alternative ways to fund road projects.

In the mid-1980s, two state laws were passed authorizing the Agency to collect tolls and development impact fees to fund road construction. With a pledged revenue stream from future tolls and development impact fees, the Agency issued nonrecourse, toll-revenue bonds to fund road construction, rather than relying on the uncertainty of state gas-tax revenue. The Agency also reached an agreement with the California Department of Transportation (Caltrans) for Caltrans to assume ownership, liability, and maintenance of the State Route 241, State Route 261, and State Route 133 toll roads as part of the state highway system. This agreement eliminated the need for the Agency to seek additional funding sources for road maintenance.

In 1993, the first 3.2-mile segment of the Foothill (State Route 241) toll road opened to traffic, the first toll road in Southern California to use FasTrak®, an electronic toll collection system that allowed drivers to pay tolls without stopping at a toll booth. The State Route 241, State Route 261, and State Route 133 toll roads serve as important, time-saving alternative routes to local freeways and arterial roads. As discussed in "Economic Factors," traffic has steadily recovered from the COVID-19 pandemic resulting in an increase in transactions to 63.4 million during the year ended June 30, 2023, compared to 60.9 million during the year ended June 30, 2022.

Financial Highlights

Tolls, fees, and fines earned in fiscal year 2023 (FY23) totaled \$212,324 compared to \$199,348 in fiscal year 2022 (FY22), an increase of 6.5%.

As of June 30, 2023 and 2022, the Agency had \$369,911 and \$488,120, respectively, of restricted cash and investments that were restricted by their purpose or subject to master indentures of trust for the bonds outstanding at each date. The Agency also had \$359,763 and \$359,842, respectively, of unrestricted cash and investments.

The Agency's net position at June 30, 2023 and 2022 was (\$1,411,290) and (\$1,445,530), respectively. The negative net position results from the inclusion in the Agency's financial statements of its long-term debt obligations (toll revenue bonds), which were used to fund design, planning and construction of the corridors, but not the related capital assets, since ownership of the corridors was transferred to Caltrans upon completion of construction.

Management's Discussion and Analysis

June 30, 2023 and 2022

(In thousands)

The Agency adopted Government Accounting Standards Board (GASB) Statement No. 94 in FY23, and the Agency's cooperative agreement with Caltrans was deemed to meet the definition of a Public-Public Partnership (PPP) agreement. This resulted in the recognition of an intangible right-to-use asset (included in capital assets, net) and liability of \$82.4M at the measurement date of July 1, 2021, related to the present value of future installment payments the Agency is required to make to Caltrans beginning in FY41 and ending in FY53. This resulted in a restatement of the Agency's previously reported Statement of Net Position, Statement of Revenues, Expenses, and Changes in Net Position, and Statement of Cash Flows for the year ended June 30, 2022 to recognize the right-to-use asset and the PPP liability as well as one year of amortization of the asset and liability discount. More detailed information about the Agency's PPP is presented in note 9 to the financial statements.

Overview of the Financial Statements

The Agency's financial statements include its statements of net position, statements of revenues, expenses, and changes in net position, statements of cash flows, and notes to the financial statements. The statements of net position and statements of revenues, expenses, and changes in net position, present the financial picture of the Agency from the economic resources measurement focus using the accrual basis of accounting. The statements of cash flows provide information about the Agency's cash receipts, cash payments, and net changes in cash resulting from operating, capital and related financing, and investing activities during the reporting period.

The statements of net position and the statements of revenues, expenses, and changes in net position report the Agency's net position and related changes. Net position is the difference between the total of recorded assets and deferred outflows and the total of liabilities and deferred inflows. The recorded activities include all toll revenue and operating expenses related to the operation of the Foothill/Eastern Transportation Corridors, as well as the Agency's design and construction-related activities and related financing costs. Activities are financed by toll revenue, development impact fees, fees and fines, and investment income.

Financial Analysis

The following table summarizes the net position of the Agency as of June 30, 2023, 2022, and 2021:

			Percentage increase	2022	Percentage increase		
		2023	(decrease)	(Restated)	(decrease)		2021
Assets and deferred outflows:						_

^{*} Excludes current portion of bonds payable which is included within Bonds payable.

Management's Discussion and Analysis

June 30, 2023 and 2022

(In thousands)

The decrease in current assets is primarily attributable to the Agency's Open Market Bond Buyback Program, through which the Agency utilized \$92.3 million of unrestricted cash to purchase and retire \$107.3 million of bond principal in FY23, and the early pay-down of bonds utilizing \$125 million of unrestricted cash. The Agency has continued the accumulation of additional cash reserves, as cash generated from operations has continued to surpass its immediate debt service requirements. This decrease in capital assets is due to the\$65.6M cost of capital improvements contributed to Caltrans and the County in FY23 as more fully described in note 5.

The decrease in net pension asset is primarily attributable to the Agency's deferred inflows/outflows of resources resulting from differences between projected and actual earnings on pension plan investments per the actuarial valuation of the OCERS pension plan.

The following is a summary of the Agency's revenue, expenses, and changes in net position for the years ended June 30, 2023, 2022, and 2021:

	2023	Percentage increase (decrease)	2022 (Restated)	Percentage increase (decrease)	2021
Operating revenues:					
Tolls, fees, and fines \$	212,324	6.5 % \$	199,348	26.1 % \$	158,103
Development impact fees	9,285	(45.4)	17,004	21.5	13,992
Other revenues	602	0.2	601	(20.5)	756
Total operating revenues	222,211	2.4	216,953	25.5	172,851
Operating expenses	30,803	17.7	26,160	7.7	21,874
Operating income	191,408	0.3	190,793	28.1	150,977
Nonoperating expenses, net	(157, 168)	8.2	(145,312)	(11.4)	(160, 539)
Change in net position	34,240		45,481		(9,562)
Net position at beginning of year	(1,445,530)	3.1	(1,491,011)	(0.6)	(1,481,449)
Net position at end of year \$	(1,411,290)	2.4 \$	(1,445,530)	3.1 \$	(1,491,011)

Tolls, fees, and fines comprised 95.6% of total revenue in FY23 compared to 91.9% of total revenue in FY22. Tolls, fees, and fines increased by 6.5% in FY23 after an increase of 26.1% in FY22. The increase was primarily due to the continued recovery from the COVID-19 pandemic which resulted in reduced traffic on the roads beginning in March 2020 following the governor's stay-at-home order. Development impact fees decreased by 45.4% after a decrease of 21.5% in FY22. The amounts of development impact fees collected fluctuate from year to year depending on residential and nonresidential development in Orange County within the area of benefit.

Operating expenses were \$30,803 in FY23 compared to \$26,160 in FY22, an increase of 17.7%. Included in operating expenses in FY23 is noncash depreciation and amortization expense on capital assets of \$4,271, compared to \$4,039 in FY22, and noncash pension expense recorded in salaries and wages related to the OCERS pension of \$45, compared to noncash contra-expense of (\$1,700) in FY22. Excluding depreciation and amortization and the noncash pension expense, operating expenses were \$26,487 in FY23 and \$23,821 in FY22. The increase in operating expenses is primarily due to the aforementioned increase in traffic and related toll revenue due to continued recovery from COVID-19, which in turn resulted in increased toll compliance and customer service costs, professional services costs, and insurance costs as well as other operating expenses.

Net nonoperating expenses for FY23 include investment income of \$15,534, compared to investment losses of (\$13,373) in FY22 with the increase due to increased yields attributable to maturities of lower yielding securities and new security purchases invested at higher rates; interest expense of (\$127,107), compared to (\$133,289) in FY22; contribution of capital improvements to Caltrans and the County of (\$65,565); and gain on retirement of

Management's Discussion and Analysis

June 30, 2023 and 2022

(In thousands)

bonds income of \$19,970 due to the Agency's Open Market Bond Buyback Program activity in FY23 and the early pay-down of bonds.

Capital Assets, Net

The following table summarizes the Agency's capital assets, net of accumulated depreciation, at June 30:

21		
3,113		
8,689		
_		
0,273		
2,075		
3, 8, - 0,		

Right-of-way acquisitions, grading, or improvements include easements and environmental mitigation parcels. Furniture and equipment include facility and toll revenue equipment related to the corridor operations facility, transponders, toll and violations collection equipment, buildings, and changeable message signs.

More detailed information about the Agency's capital assets is presented in note 5 to the financial statements.

Debt Administration

At June 30, 2023, 2022, and 2021, the Agency had outstanding bonds payable of \$2,607,720, \$2,828,661, and \$2,808,996, respectively. The changes in FY23 are primarily attributable to the accretion of principal on capital appreciation bonds of \$37,143 offset by principal payments of \$17,381 and the early pay-down of \$125,000 of bonds, which resulted in a recognized gain on retirement of bonds of \$4,849. Additionally, in FY23 the Agency's Open Market Bond Buyback Program resulted in the purchase and retirement of \$107,353 of bond principal for a total acquisition price of \$92,305, which resulted in a recognized gain on retirement of bonds of \$15,121.

All of the Agency's tolls, fees, fines, and development impact fee revenue, less certain expenses, as defined in the indentures of trust, are pledged to repay these bonds. The Agency has several debt covenants contained in the master indentures of trust. Management of the Agency represents that the Agency was in compliance with all of its covenants as of and for the years ended June 30, 2023, 2021 and 2020.

More detailed information about the Agency's bonds is presented in note 7 to the financial statements.

Economic Factors

The Agency continues to see recovery from the COVID-19 pandemic, evidenced by the 6.5% increase in tolls, fees, and fines in FY23. Additionally, due to the Agency's demonstrated financial discipline and actions taken in recent years to further strengthen the finances, the Agency has very strong liquidity and is well positioned to meet its continued financial obligations.

In accordance with the Agency's toll policy, new toll rates were approved by the Agency's board of directors for implementation effective July 1, 2023. New toll rates reflect a 2% inflationary increase at all toll points.

In July 2022, the Agency completed a \$125,000 early pay-down of a portion of its bonds, which resulted in a recognized gain of \$4,849 due to the write-off of net bond premiums. This resulted in a reduction of the Agency's future debt service interest payments by \$181,953.

Management's Discussion and Analysis

June 30, 2023 and 2022

(In thousands)

In January 2023, the Board authorized the Agency's Open Market Bond Buyback Program. In February and March 2023, the Agency purchased and retired a portion of its 2021 Bonds on the open market. The \$107,353 of outstanding bonds were purchased for a total acquisition price of \$92,305, which resulted in a recognized gain on retirement of bonds of \$15,121. This resulted in a reduction of the Agency's future debt service interest payments by \$115,240.

Contacting the Agency's Financial Management

This financial report is designed to provide a general overview of the Agency's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Controller, Foothill/Eastern Transportation Corridor Agency, 125 Pacifica, Suite 100, Irvine, CA 92618 or to info@thetollroads.com.

Notes to Financial Statements
June 30, 2023 and 2022
(In thousands)

(1) Reporting Entity

In recognition of the regional transportation needs in the County of Orange (County), the California State Legislature enacted various amendments to the California Government Code to authorize the financing of bridges and major thoroughfares by joint powers agencies. Pursuant to such authorization, the Foothill/Eastern Transportation Corridor Agency (the Agency) was created in January 1986 by a joint exercise of powers agreement. Current members are the County and the cities of Anaheim, Dana Point, Irvine, Lake Forest, Mission Viejo, Orange, Rancho Santa Margarita, San Juan Capistrano, Santa Ana, Tustin, and Yorba Linda (collectively, the member agencies). The purpose of the Agency is to plan, design, construct, finance, administer funds for, and operate the Foothill and Eastern Transportation Corridors. The Agency is governed by a board of directors comprising representatives from the member agencies. The Agency has the power to, among other things, incur debt and establish and collect tolls.

The financial statements comprise the activities of the Agency. There are no other organizations for which the Agency is financially accountable or for which it is fiscally responsible. The Agency and the San Joaquin Hills Transportation Corridor Agency (SJHTCA) are under common management and together are called the Transportation Corridor Agencies (TCA). However, each agency has an independent governing board. Refer to note 2(m) of the financial statements for interagency transactions detail.

During the year ended June 30, 2021, the city of San Clemente voluntarily withdrew from participation in the Agency as a member city. The city of San Clemente remains responsible for remitting development impact fees to the Agency and there is no foreseen financial impact to the Agency due to the withdrawal.

(2) Summary of Significant Accounting Policies

The accounting policies of the Agency are in conformity with U.S. generally accepted accounting principles (U.S. GAAP) applicable to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing accounting and financial reporting principles.

(a) Basis of Presentation

The Agency records revenue in part from fees and other charges for services to external users and, accordingly, has chosen to present its financial statements using the reporting model for special-purpose governments engaged in business-type activities as an enterprise fund. This model allows all financial information for the Agency to be reported in a single column in each of the accompanying financial statements.

The Agency distinguishes operating revenue and expenses from nonoperating items in the preparation of its financial statements. Operating revenue and expenses generally result from the collection of tolls, fees, and fines on the corridors. The Agency's operating expenses include depreciation, materials, services, and other expenses related to the operation of the corridors, in addition to costs associated with the Agency's ongoing obligations for environmental mitigation and certain costs related to construction administration. All revenue and expenses not meeting this definition are reported as nonoperating revenue and expenses.

Notes to Financial Statements June 30, 2023 and 2022 (In thousands)

(2) Summary of Significant Accounting Policies (Continued)

(b) Basis of Accounting

The financial statements are prepared using the accrual basis of accounting. Revenue is recognized when earned, and expenses are recognized when incurred.

Restricted resources are used in accordance with the Agency's master indentures of trust. Unrestricted resources are used at the Agency's discretion. When both restricted and unrestricted resources are available for use, it is the Agency's policy to determine on a case-by-case basis when to use restricted or unrestricted resources.

(c) New Accounting Pronouncement

During the year ended June 30, 2023, the Agency implemented GASB Statement No. 94, Public-Private and Public-Public Partnerships and Availability Payment Arrangements. The objective of this Statement is to improve financial reporting by addressing issues related to public-private and public-public arrangements (PPPs). As used in this Statement, a PPP is an arrangement in which a government (the transferor) contracts with an operator (a governmental or nongovernmental entity) to provide public services by conveying control of the right to operate or use a nonfinancial asset, such as infrastructure or other capital asset (the underlying PPP asset), for a period of time in an exchange or exchange-like transaction. Under this Statement, an operator is required to recognize a liability for installment payments to be made to the transferor in relation to the PPP measured at the present value of the payments expected to be made during the PPP term. Amortization of the present value discount is to be recorded as interest expense. Additionally, an operator is required to recognize an intangible right-to-use asset measured as the present value of the amount of consideration to be provided to the transferor over the PPP term, plus any payments made to the transferor at or before commencement of the term, and certain direct costs. A right-to-use asset should be amortized over the shorter of the PPP term or the useful life of the underlying PPP asset as amortization expense. This statement was applied retroactively by restating financial statements for all prior periods presented. See note 9.

(d) Budget

Fiscal year budgets are prepared by the Agency's staff for estimated revenue and expenses. The board of directors adopts the annual budget at the June board meeting for the fiscal year commencing the following July. The approval of the budget requires the consent of at least two-thirds of the board members. No expenditures in excess of the total budget for each board-designated category are made without the approval of a budget amendment of at least two-thirds of the board members. All budgets are adopted on a basis consistent with U.S. GAAP. All budget appropriations lapse at year-end. Any budgeted expenses not incurred by each year-end must be reappropriated in the next fiscal year.

(e) Cash and Cash Equivalents

Cash and cash equivalents generally consist of cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

The Agency classifies cash and cash equivalents as current or noncurrent based on intended use and/or restriction for construction or debt service in accordance with GASB Statement No. 62.

(f) Investments

Investments, except for money market funds, are stated at fair value on a recurring basis. Money market funds are recorded at amortized cost.

Notes to Financial Statements
June 30, 2023 and 2022
(In thousands)

(2) Summary of Significant Accounting Policies (Continued)

(f) Investments (Continued)

The Agency classifies investments as current or noncurrent based on intended use and/or restriction for construction or debt service in accordance with GASB Statement No. 62.

(g) Receivables

Receivables include amounts due from member agencies for development impact fees collected on behalf of the Agency, credit card receivables, interoperable receivables due from other California toll agencies, receivables from patrons for tolls, and interest.

(h) Capital Assets

Capital assets include construction in progress, environmental mitigation sites, easements, the corridor operations facility, transponders, toll and violations collection equipment, buildings, changeable message signs, vehicles, furniture, and intangible right-to-use assets. Capital assets are defined by the Agency as assets with an initial individual cost of more than five thousand dollars, with the exception of transponders that are valued in total, and an estimated useful life in excess of one year. The cost of capital assets includes ancillary charges necessary to place the assets into their intended location and condition for use.

As described further in note 5, the Foothill/Eastern Transportation Corridors and the related purchases of rights of way, for which title vests with the California Department of Transportation (Caltrans), are not included as capital assets because the Agency does not have title to these assets. The Agency holds the title and capitalizes these projects while in construction until project completion, at which point the title is transferred to Caltrans to be maintained as part of the state highway system. The costs of normal maintenance and repairs and mitigation that do not add value to the assets or materially extend asset useful lives are not capitalized.

Capital assets are recorded at cost (except for intangible right-to-use assets, the measurement of which is discussed in note 9 below) and are depreciated/amortized using the straight-line method over the following estimated useful lives:

Asset type	Useful life
Buildings	20–30 Years
Changeable message signs	15 Years
Toll revenue equipment	5 Years
Vehicles	5 Years
Right-to-use asset	31 Years
Leasehold improvements, other	
equipment, and furniture	5–10 Years

Assets determined to be impaired are recorded at the lower of cost or estimated net realizable value.

(i) Unearned Revenue

Unearned revenue represents prepaid tolls collected from patrons, including those using FasTrak®, an electronic toll collection system.

Notes to Financial Statements
June 30, 2023 and 2022
(In thousands)

(2) Summary of Significant Accounting Policies (Continued)

(j) Unamortized Deferral of Bond Refunding Costs

Deferred bond-refunding costs represent certain costs related to the issuance of bonds. In refunding debt resulting in the legal defeasance of the old debt, the difference in the carrying value of the refunded debt and its reacquisition price is reported as deferred outflows or deferred inflows of resources in the Statements of Net Position and amortized over the life of the old or the new debt, whichever is shorter.

(k) Pension Plan

Qualified permanent employees of the Agency participate in a cost-sharing, multiple-employer defined benefit pension plan administered by the Orange County Employees Retirement System (OCERS). For purposes of measuring the Agency's net pension liability, deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the plan and additions to/deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by OCERS. For this purpose, plan contributions are recognized when they are due and payable in accordance with plan terms. Investments are reported at fair value.

(I) Revenue Recognition

Toll revenue is recognized at the time each vehicle passes through the toll plaza. Violation revenue is recognized upon receipt of payment. Development impact fees are earned when building permits are issued and funds are collected by the member agencies. Other revenue is recognized when earned.

(m) Transactions with SJHTCA

Expenses directly related entirely to the Agency are charged to the Agency, and those incurred on behalf of both the Agency and SJHTCA are allocated between the two agencies based on the estimated benefit to each. In addition, the Agency has amounts due from SJHTCA related to SJHTCA customers who incur tolls on the Agency's corridors and other expenses and amounts due to SJHTCA related to the Agency's customers who incur tolls on State Route 73. At June 30, 2023 and June 30, 2022, the Agency had tolls due to SJHTCA of \$5,076 and \$5,062, respectively.

A note receivable from SJHTCA was established when the Agency's board of directors and the board of directors of SJHTCA approved an agreement that provided for the termination of the Mitigation Payment and Loan Agreement between the agencies, concurrently with the closing of a refinance transaction proposed by SJHTCA. The termination agreement also provided for SJHTCA to pay \$120,000, plus accrued interest, to the Agency, in annual installments beginning January 15, 2025 equal to 50% of SJHTCA's surplus funds. At June 30, 2023 and June 30, 2022, the Agency had a note receivable of \$131,186 and \$129,633, respectively.

(n) Net Position

The Agency's net position is classified within the following categories:

Net investment in capital assets: Represents the Agency's capital assets, net of accumulated depreciation and unamortized bond refunding costs, reduced by the outstanding principal balances of debt attributable to the acquisition, construction, and improvement of the Agency's capital assets and capital assets related to construction, rights-of-way, grading, and improvements that were transferred to Caltrans in previous years. See note 5.

Notes to Financial Statements June 30, 2023 and 2022 (In thousands)

(2) Summary of Significant Accounting Policies (Continued)

(n) Net Position (Continued)

Restricted: Represents the Agency's assets subject to externally imposed conditions, related primarily to restricted bond proceeds and the Agency's tolls, fees, fines, and development impact fee revenue, less certain expenses, in accordance with the Agency's master indentures of trust.

Unrestricted: Represents the remainder of the Agency's net position not included in the categories above.

(o) Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of certain assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

(p) Reclassifications

Certain amounts reported in the prior period have been reclassified to conform to the current period presentation. There was no impact on total net position or changes in net position as a result of these reclassifications.

(3) Development Impact Fees

The sources of development impact fees for the years ended June 30, 2023 and 2022 were as follows:

	2023		 2022
City of Irvine	\$	4,930	\$ 12,748

(a) Cash Deposits

Custodial Credit Risk Related to Cash Deposits

Custodial credit risk for deposits is the risk that, in the event of failure of a depository financial institution, the Agency will not be able to recover its deposits or will not be able to recover collateral securities that are in possession of an outside party.

The Agency's custodial credit risk is mitigated in that the full amounts of the deposit accounts above are insured by federal depository insurance or collateralized in accordance with Section 53652 of the California Government Code with securities held by the pledging financial institution in the Agency's name.

(b) Investments

(i) Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The Agency mitigates this risk by matching maturity dates, to the extent possible, with the Agency's expected cash flow.

A summary of the Agency's investments held at June 30, 2023 that are governed by the Agency's investment policy and its bond agreements, including money market funds of \$24,057, U.S. Treasury securities of \$22,742, CAMP of \$71,895 and LAIF of \$754 that are considered cash equivalents, is as follows:

				Remaining maturity (in years)

LAIF		22,581	22,581		_		
Total	\$	829,549	\$ 516,243	\$	313,306		

(ii) Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligation to the holder of the investment. The Agency's investment policy sets specific parameters by type of investment for credit quality, maximum maturity, and maximum percentage investment. Both the policy and the Agency's debt agreements generally require that all securities must be issued by companies with a long-term debt rating of at least "A" by two of the Nationally Recognized Statistical Rating Organizations (NRSRO) or at least "AA" by one NRSRO.

The investment of debt proceeds and toll revenue held by the Agency's bond trustee is governed by provisions of the debt agreements, rather than by the general provisions of the California Government Code or the Agency's investment policy.

At June 30, 2023 and 2022, all of the Agency's investments were rated at or above the minimum levels required by its investment policy and debt agreements.

Notes to Financial Statements
June 30, 2023 and 2022
(In thousands)

(4) Cash and Investments (Continued)

(b) Investments (Continued)

(iii) Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of an investment in a single issuer. The Agency mitigates these risks by holding a diversified portfolio of high-quality investments. Further, the Agency's investment policy generally limits the amount of the portfolio that can be invested in a single issuer to no more than 5% of the portfolio, with the exception of securities and deposits issued or guranteed by the U.S. Treasury, federal agency institutions, and government sponsored enterprises.

At June 30, 2023, with the exception of investments issued or explicitly guaranteed by the U.S. government, money market mutual funds, and external investment pools, there were no investments in any issuers that accounted for 5% or more of the Agency's total investments, other than investments with Federal Home Loan Bank, and Federal Farm Credit Bank that represented approximately 9% and 5%, respectively, of the Agency's total investments, as permitted by the Agency's investment policy and the applicable bond indentures.

At June 30, 2022, with the exception of investments issued or explicitly guaranteed by the U.S. government, money market mutual funds, and external investment pools, there were no investments in any issuers that accounted for 5% or more of the Agency's total investments, other than investments with Federal Home Loan Bank, and Federal Farm Credit Bank that represented approximately 12% and 5%, respectively, of the Agency's total investments, as permitted by the Agency's investment policy and the applicable bond indentures.

(iv) Custodial Credit Risk

Custodial credit risk for investments is the risk that the Agency will not be able to recover the value of investment securities that are in the possession of an outside party. All securities owned by the Agency are deposited in the Agency's trustee bank, with the exception of a money market account, LAIF, and CAMP funds that are deposited in the Agency's primary bank. Securities are not held in broker accounts.

(4) Cash and Investments (Continued)

(b) Investments (Continued)

(v) Fair Value Measurements

Because investing is not a core part of the Agency's mission, the Agency has determined that the disclosures related to these investments only need to be disaggregated by major type and has chosen a tabular format for disclosing the levels within the fair value hierarchy established by U.S. GAAP. The hierarchy is based on the valuation inputs used to measure the fair value of the asset, as follows:

Level 1 inputs are quoted prices in active markets for identical assets.

Level 2 inputs are significant other observable inputs.

Level 3 inputs are significant, unobservable inputs.

Debt securities classified as Level 2 in the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices. Commercial paper and certificates of deposit are valued based on quoted prices in active markets of similar securities.

At June 30, 2023 and June 30, 2022, the Agency had the following fair value measurements:

				June 30, 2023								
Investment type		Fair value		Quoted prices in active markets for identical assets (Level 1)		Significant other observable inputs (Level 2)		Significant unobservable inputs (Level 3)				
Federal agency, U.S. government-	_		_	•	_	,	_	, ,				
sponsored enterprise, and												
supranational notes and bonds	\$	139,977	\$	_	\$	139,977	\$	_				
Corporate notes		172,719		_		172,719		_				
U.S. Treasury securities		214,139		_		214,139		_				
Certificates of deposit		48,932		_		48,932		_				
Commercial paper		31,353		_		31,353		_				
Total	\$	607,120	\$		\$	607,120	\$					

Excluded from the table above are money market funds of \$24,057, which are reported at amortized cost, and funds on deposit with CAMP totaling \$71,895 and LAIF totaling \$754, which are not subject to fair value measurement categorization.

Depreciable capital assets, net	\$	88,745	\$	(3,722)	\$		\$	85,023

Right-of-way acquisitions, grading, and improvements include easements and environmental mitigation parcels. Furniture and equipment include transponders, toll and violations collection equipment, buildings, vehicles, and leasehold improvements and capitalized software. Those not yet placed in service are reported as non-depreciable.

Transfers/Deletions

Ownership of the Foothill/Eastern Transportation Corridor construction, rights-of-way, grading, and improvements were transferred to Caltrans during the year ended June 30, 1999 upon satisfaction of all conditions contained within the cooperative agreements between the Agency and Caltrans. The Agency incurs additional costs for improvements and enhancements to the thoroughfares previously transferred to Caltrans. These improvements and enhancements are covered by separate project-specific cooperative agreements with Caltrans. They are transferred to Caltrans on an ongoing basis and recognized as contribution expense. For the years ended June 30, 2023 and 2022, expenses of \$65,565 and \$0, respectively, were recognized for the transfer of capital improvements to Caltrans and the County related to the Oso Parkway Bridge project. The balance of construction in progress represents capital improvement projects, most of which will also be transferred to Caltrans upon completion and recognized as contribution expense upon completion.

(6) Mitigation Payment and Loan Agreement

On November 10, 2005, the Agency's board of directors and the board of directors of SJHTCA entered into a Mitigation Payment and Loan Agreement (the Agreement). The terms of the Agreement called for the Agency to make payments totaling \$120,000 over four years to SJHTCA to mitigate for anticipated loss of revenue due to the construction of the State Route 241 to I-5 connection project. All scheduled payments totaling \$120,000 were made to SJHTCA as of June 2009 and were recorded as construction in progress.

In addition, the Agency committed to provide loans to SJHTCA on an as-needed basis up to \$1,040,000, subject to the terms of the Agreement, to assist SJHTCA in achieving its required debt service coverage ratio. Payments of accrued interest and outstanding principal would begin in the fiscal year when SJHTCA achieved a surplus in revenue in excess of the amount needed to meet the debt coverage requirement. All principal and accrued interest would be due and payable on January 1, 2037 to the extent that SJHTCA had surplus revenue available to pay all amounts due. The Agreement also stipulated that the Agency would not be obligated to make loans to SJHTCA prior to securing the necessary funds for constructing the State Route 241 to I-5 connection project unless the Agency determined that it would not build the project. If the commencement and diligent pursuit of the construction of the State Route 241 to I-5 connection project did not occur by June 30, 2015, the mitigation payments would be added to the principal amount of the loan. No amounts were loaned in connection with this arrangement.

On August 14, 2014, the Agency's board of directors and the board of directors of SJHTCA approved an agreement that provided for termination of the Agreement concurrently with the closing of a refinance transaction proposed by SJHTCA. The closing of this refinance transaction occurred on November 6, 2014. The termination agreement also provided for SJHTCA to pay \$120,000 to the Agency, in annual installments beginning January 15, 2025 equal to 50% of SJHTCA's surplus funds as defined in the agreement. Interest accrual based on the average annual yield of the State of California Pooled Money Investment Account commenced upon closing of the transaction and interest is payable annually beginning January 15, 2025.

As a result of this agreement, the aggregate payments of \$120,000 that were made to SJHTCA through 2009 were reclassified during 2015 as a note receivable from SJHTCA and a reduction of construction in progress. The balance of the note receivable and related interest due from SJHTCA as of June 30, 2023 and June 30, 2022 was \$131,186 and \$129,633, respectively.

In February and March 2023, the Agency purchased and retired a portion of its 2021 Bonds, 2019 Bonds, 2015 Bonds, and 2013 Bonds on the open market. The \$107,353 of outstanding bonds were purchased for a total acquisition price of \$92,305, which resulted in a recognized gain on retirement of bonds of \$15,121.

In July 2022, the Agency completed a \$125,000 early pay-down of its 2013 Bonds, which resulted in a recognized gain on retirement of bonds of \$4,849.

In February 2021, the Agency exchanged \$519,242 of tax-exempt Series 2021 Toll Road Revenue Refunding Bonds with qualified institutional bondholders, issued \$187,585 of federally taxable Series 2021 Toll Road Refunding Revenue Bonds, and issued \$52,945 of tax-exempt Series 2021 Toll Road Revenue Refunding Bonds (collectively, "2021 Bonds"). The proceeds of the issuance were used to refund \$186,835 and exchange \$505,370 of certain 2013 Senior and Junior Term current interest bonds.

The reacquisition price of the refunded bonds exceeded their net carrying amount by \$143,984; this amount was considered a deferred outflow of resources for accounting purposes and is being amortized through 2043 and 2046, the remaining periods during which the refunded bonds were scheduled to be repaid. In addition, the Agency incurred bond insurance premiums of \$3,201, which are being amortized over the life of the 2021 Bonds. The 2021 Bonds were issued at a total premium of \$88,495 and mature in annual installments from January 2023 to January 2046. Interest on the 2021 Bonds is payable semiannually at rates ranging from 1.16% to 5%. The 2021 Bonds are subject to early redemption on or after January 15, 2031 at the option of the Agency by payment of principal and accrued interest.

Notes to Financial Statements
June 30, 2023 and 2022
(In thousands)

(7) Long-Term Obligations (Continued)

A portion of the net proceeds of the bond refunding totaling \$183,922 from the issuance of the federally taxable bonds were used to purchase U.S. government securities, which were placed in an irrevocable escrow fund to be used for the debt service payments related to the portion of the 2013 bonds which are to be refunded in their entirety on January 15, 2024. The transaction resulted in a present value savings of approximately \$156,990 and cash flow savings of approximately \$214,400. As of June 30, 2023 and June 30, 2022, the amount of the 2013 bonds outstanding, which were eliminated from the financial statements as a result of the February 2021 refunding, was \$161,135.

The following information has been provided for additional historical context and details for our current outstanding bonds:

In December 2019, the Agency issued \$897,055 of federally taxable Series 2019 Toll Road Refunding Revenue Bonds (2019 Bonds); the proceeds of the issuance were used to refund \$820,285 of certain 2013 Senior Term current interest bonds. The reacquisition price of the refunded bonds exceeded their net carrying amount by \$195,558; this amount was considered a deferred outflow of resources for accounting purposes and is being amortized through 2053, the remaining period during which the refunded bonds were scheduled to be repaid. In addition, the Agency incurred bond insurance premiums of \$7,608, which are being amortized over the life of the 2019 Bonds. The 2019 Bonds were issued at par and mature in annual installments from January 2049 to January 2053. Interest on the 2019 Bonds is payable semiannually at rates ranging from 3.824% to 4.094%. The 2019 Bonds are subject to early redemption on or after January 15, 2030 at the option of the Agency by payment of principal and accrued interest.

The net proceeds of the bond refunding along with \$75,000 of unrestricted cash were used to purchase U.S. government securities, which were placed in an irrevocable escrow fund to be used for the debt service payments related to the 2013 bonds which are to be refunded in their entirety on January 15, 2024. The transaction resulted in a present value savings of approximately \$210,000 and cash flow savings of approximately \$335,000. As of June 30, 2023 and June 30, 2022, the amount of the 2013 bonds outstanding, which were eliminated from the financial statements as a result of the December 2019 refunding, was \$844,758.

In February 2015, the Agency issued \$87,008 of Senior Lien Toll Road Refunding Revenue Bonds (2015 Capital Appreciation Bonds); together with certain funds held in trust, the proceeds of the issuance were used to refund certain outstanding revenue bonds. The bonds accrue interest at rates ranging from 4.21% to 4.42%, compounded semiannually, and are scheduled to mature in annual installments from January 2033 to January 2035.

In December 2013, the Agency issued \$2,274,617 of Series 2013 Toll Road Refunding Revenue Bonds (2013 Bonds); the proceeds of the issuance were used to refund certain outstanding revenue bonds. The reacquisition price of the refunded bonds exceeded their net carrying amount by \$14,534; this amount was considered a deferred loss for accounting purposes and is being amortized through 2040, the remaining period during which the refunded bonds were scheduled to be repaid. In addition, the Agency incurred bond insurance premiums of \$9,533, which are being amortized over the life of the 2013 bonds. The 2013 Bonds were issued at a discount of \$41,009, which are being amortized over the life of the bonds.

Notes to Financial Statements
June 30, 2023 and 2022
(In thousands)

(7) Long-Term Obligations (Continued)

The 2013 current interest bonds include \$1,374,440 of Senior Term Bonds that mature in installments from January 2042 through January 2053; \$375,000 of Term Rate Bonds that mature in installments from January 2050 through January 2053; and \$198,050 of Junior Lien Bonds that mature in installments from January 2023 through January 2043. Interest on the 2013 current interest bonds is payable semiannually at rates ranging from 5.00% to 6.50%. The Senior Term Bonds and the Junior Lien Bonds are subject to early redemption on or after January 15, 2024, at the option of the Agency, by payment of principal and accrued interest. The Term Rate Bonds are subject to early redemption, at the option of the Agency, by payment of principal and accrued interest, on or after dates ranging from July 15, 2017 through July 15, 2022.

During August 2017, \$125,000 of the 2013 Term Rate Bonds were remarketed, resulting in a reduction in the applicable interest rate from 5.00% to 3.95%.

During July 2019, \$125,000 of the 2013 Term Rate Bonds (Subseries B-2) were remarketed, resulting in a reduction in the applicable interest rate from 5.00% to 3.50%.

The 2013 capital appreciation bonds accrue interest at rates ranging from 3.750% to 7.125%, compounded semiannually, and are scheduled to mature in annual installments from January 2020 to January 2042. The bonds are subject to early redemption, at the option of the Agency, based on an independent make-whole calculation.

The 2013 convertible capital appreciation bonds accrue interest, compounded semiannually based on payable semiannually based on accreted amounts. The bonds are scheduled to mature in annual installments from January 2025 to January 2042. The bonds are subject to early redemption on or after January 15, 2031, at the option of the Agency, by payment of the accreted amounts and accrued interest.

Included in principal at June 30, 2023 and 2022, is \$268,616 and \$247,049 respectively, related to accreted principal on convertible capital appreciation bonds and capital appreciation bonds.

A portion of the net proceeds of a prior bond refunding was used to purchase U.S. government securities, which were placed in an irrevocable escrow fund to be used for the debt service payments related to a previously refunded portion of the 1995 bonds. As of June 30, 2023 and June 30, 2022, the amounts of the previously refunded 1995 bonds outstanding, which were previously eliminated from the financial statements as a result of the refunding, are \$589,576 and \$640,997, respectively.

The master indentures of trust require the trustee to hold bond proceeds, pledged revenue, and any other amounts pledged for repayment of the bond debt described above. The balance of pledged funds held by the trustee are included in restricted cash and investments.

(8) Commitments and Contingencies

(a) Toll Collection and Revenue Management System Agreements

The Agency and SJHTCA have entered into agreements with contractors for various services, including toll collection systems operation and maintenance. The agreements expire on various dates through June 30, 2025 and are cancelable by the Agency, without further obligation, with advance written notice.

(b) Project Costs

As of June 30, 2023, the Agency has outstanding commitments and contracts related to construction activities of approximately \$49.8 million.

(c) Litigation

The agency is a defendant in various legal actions. Management believes that the ultimate resolution of these actions will not have a significant effect on the agency's financial position or results of operations.

(d) Risk Management

The Agency maintains insurance coverage for various risks, including but not limited to property, liability, earthquake, and flood coverage. Coverage is purchased in accordance with the Agency's master indentures of trust, as applicable. No losses have exceeded insurance coverage in the past three fiscal years.

Notes to Financial Statements
June 30, 2023 and 2022
(In thousands)

(9) Public-Public Partnership (PPP) Arrangement for State Highways

As discussed in Notes 2 and 5, the Agency entered into an agreement with the California Department of Transportation, under which the Agency would design, build, and finance state highways and be granted the right to operate the highways as toll roads until January 15, 2053. The Agency has the right to set, collect, and retain tolls during this period. The Agency recognizes highway improvements as construction in progress, and transfers title to the constructed assets to the State as each segment is completed. The Agency will also make payments to the State totaling \$212,897 over fiscal years 2041-2053 in monthly installment payments. The Agency recognized a liability and an intangible right-to-use asset of \$82,406, which was the net present value of the future installment payments as of July 1, 2021, the measurement date used for the implementation of GASB Statement No. 94. The discount rate applied to the future installment payments is 3.7%, which is the Agency's estimated incremental borrowing rate as of the implementation date, and amortization of the discount is recognized as interest expense. For the year ended June 30, 2023, total interest expense related to the PPP liability discount was \$3,166, and total amortization expense of the right-to-use asset was \$2,611.

The adoption of this statement resulted in the restatement of the Agency's Statement of Net Position, Statement of Revenues, Expenses, and Changes in Net Position, and Statement of Cash Flows for the year ended June 30, 2022 to recognize the asset and liability as of the beginning of the period and \$3,053 of related interest expense and \$2,611 of related amortization expense. Net position as of June 30, 2022 and for the year then ended was restated by \$5,664 in total as a result of adoption.

The following is a summary of the installment payment requirements by fiscal year for the Agency's PPP liability as of June 30, 2023:

	Pri:	ncipal	_	Interest	_	Total
2024		_	· -	_		_
2025		_		_		
2026		_				_
2027		_				_
2028		_				_
2029 – 2033		_		_		_
2034 – 2038		_				_
2039 – 2043		_		43,246		43,246
2044 – 2048		1,704		77,897		79,601
2049 – 2053		80,702		9,348		90,050
	\$	82,406	\$	130,491	\$	212,897

(10) Corridor Operations Facility Lease

In January 2000, the Agency, along with SJHTCA, relocated to the corridor operations facility. At that time, an operating lease agreement was executed between the Agency (lessor) and SJHTCA (lessee). The lease agreement expires at the earliest occurrence of 1) dissolution of the Agency, 2) sale of the facility, or 3) dissolution of SJHTCA. Lease payments are based on the estimated fair market rental value and are adjusted annually. The Agency received lease revenue for years ended June 30, 2023 and 2022 of \$574 and \$581, respectively.

Notes to Financial Statements
June 30, 2023 and 2022
(In thousands)

(11) Employees' Retirement Plans

Defined Contribution Plan – The Agency sponsors a defined contribution plan under the provisions of Internal Revenue Code Section 457 that permits employees to defer portions of their pretax compensation. The Agency provides matching contributions to a related Section 401(a) plan, at a rate of 50% of the employees' deferral contributions, up to a maximum of 2% of each employee's related compensation. In connection with this plan, the Agency incurred \$77 and \$68 of expense for the years ended June 30, 2023 and 2022, respectively. Benefit terms, including contribution rates, for the 401(a) plan are established and may be amended by the Agency. The 401(a) plan is administered by MissionSquare Retirement.

Defined Benefit Plan – Qualified permanent employees of the Agency participate in a cost-sharing multiple-employer defined benefit pension plan (the Plan) administered by OCERS, a public employee retirement system established in 1945. The Plan is subject to the provisions of the County Employees Retirement Law of 1937 (California Government Code Section 31450 et. seq.); the California Public Employees' Pension Reform Act of 2013 (Government Code Section 7522 et. seq.); and other applicable statutes.

(a) Benefits

The Plan provides retirement, disability, and death benefits to eligible plan members and their beneficiaries. Monthly retirement benefits are determined by benefit formulas that depend upon the classification of employees, the date of entering membership in OCERS or a reciprocal plan, retirement age, years of service, and final average compensation. The Agency's members hired prior to January 1, 2013 are subject to a benefit formula of 2.0% of final average compensation per year of service, based upon retirement at age 55. Members hired on or after January 1, 2013 are subject to a benefit formula of 2.5% at 67.

Amounts payable for retired members are subject to annual cost-of-living adjustments based upon changes in the Consumer Price Index for the prior calendar year. Adjustments are limited to a maximum increase or decrease of 3% per year. Any increase greater than 3% is banked and may be used in years when the CPI is less than 3%. The increase is established and approved annually by the Board of Retirement.

(b) Contributions

Employer and employee contribution requirements are determined as percentages of covered payroll amounts and vary based upon the age of each employee at the date of entering membership in OCERS or a reciprocal plan. Employer contribution rates are determined using the entry age normal actuarial cost method based upon a level percentage of payroll. Employer contribution rates ranged from 11.99% to 63.25% for the year ended December 31, 2022, and from 11.93% to 67.55% for the year ended December 31, 2021. Employee contributions are established by the OCERS Board of Retirement and guided by applicable state statutes. Employee contribution rates ranged from 9.59% to 17.27% for the year ended December 31, 2022, and from 9.72% to 17.22% for the year ended December 31, 2021.

Notes to Financial Statements
June 30, 2023 and 2022
(In thousands)

(11) Employees' Retirement Plans (Continued)

(b) Contributions (Continued)

The contributions from the Agency recognized by the Plan, measured as the total amounts of additions to the Plan's fiduciary net position for the years ended December 31, 2022 and 2021, were \$477 and \$497, respectively, and equaled 100% of the required contributions, and represented 11.6% and 12.4% of the Agency's covered payroll, respectively.

The actuarially determined contributions from the Agency for the years ended June 30, 2023 and 2022, were \$477 and \$497, respectively and represented 11.6% and 12.4%, respectively, of the Agency's covered payroll.

The Agency paid off its portion of TCA's unfunded actuarial accrued liability (UAAL), totaling \$8,920, on July 1, 2019. This is included in the Agency's total contributions during the year ended June 30, 2020.

(c) Pension Liabilities, Pension Expense, and Deferred Outflows/Inflows of Resources

For purposes of reporting under GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*, OCERS arranged for determination of the Plan's collective net pension liability; deferred outflows and inflows of resources related to pensions; and pension expense, as well as the proportionate share of each amount applicable to the Plan's participating employers, using measurement dates of December 31, 2021 and 2020, with respective actuarial valuations as of December 31, 2020 and 2019 and standard procedures to roll forward to the respective measurement dates that correspond with the Agency's reporting dates of June 30, 2022 and 2021. The proportionate share of the total pension liability attributable to TCA has been determined by OCERS's actuary based upon actual employer contributions within each rate group and TCA is the only employer within its rate group. TCA's proportionate share is further allocated between the Agency and SJHTCA on the basis of their respective shares of covered payroll to determine the amounts reportable by the Agency, as indicated below:

	June 30,			
		2023		2022
Collective net pension liability (asset) - OCERS	\$	5,391,006	\$	2,050,238
Proportionate share attributable to Transportation Corridor Agencies		(660)		(10,882)
Share allocable to Foothill/Eastern Transportation Corridor Agency		(383)		(6,529)
Agency's proportion (percentage) of the collective net pension liability		-0.01%		-0.32%
Collective deferred outflows of resources - OCERS	\$	1,376,478	\$	443,275
Proportionate share attributable to Transportation Corridor Agencies		4,142		1,119
Share allocable to Foothill/Eastern Transportation Corridor Agency		2,403		671

(11) Employees' Retirement Plans (Continued)

(c) Pension Liabilities, Pension Expense, and Deferred Outflows/Inflows of Resources (Continued)

The Agency's balances of deferred outflows and deferred inflows of resources as of June 30, 2023 will be recognized as changes to the net pension liability/asset as follows:

Year ending June 30:	
2024	\$ 108
2025	261
2026	541
2027	1,208
2028	 (16)
	\$ 2,102

(d) Actuarial Assumptions and Other Inputs

The following significant methods and assumptions were used to measure the Plan's total pension liability as of December 31, 2022 and 2021:

- Actuarial experience study Three-year period ended December 31, 2019
- Inflation rate of 2.5%.
- Projected salary increases for general members of 4.00% to 11.00% and safety members from 4.60% to 15.00%.
- Mortality rate based on Pub-2010 mortality tables, projected generationally using two-dimensional MP-2019 scale, adjusted separately for healthy and disabled for both general and safety members.

The mortality assumptions were based, respectively, on the results of the actuarial experience studies for the period January 1, 2017 through December 31, 2019 using the Pulic Retirement Plans Mortality tables (Pub-2010) published by the Society of Actuaries. Within the Pub-2010 family of mortality tables, OCERS has adopted both the General and Safety Amount-Weighted Above-Median Mortality Tables (adjusted for OCERS experience), projected generationally using the two-dimensional mortality improvements scale MP-2019.

Notes to Financial Statements

(In thousands)

(11) Employees' Retirement Plans (Continued)

(d) Actuarial Assumptions and Other Inputs (Continued)

The discount rate used to measure the Plan's total pension liability as of December 31, 2022 and 2021 was 7.00%. The projection of cash flows used to determine the discount rates assumed that plan member contributions will be made at the current contribution rates and that employer contributions will be made at actuarially determined contribution rates. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments for current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The long-term expected rate of return should be determined without reduction for plan administrative expense. The investment return assumptions are net of administrative expenses, assumed to be 11 basis points for each year. The investment rate of return assumptions remained the same for reporting purposes due to the immaterial impact administrative expenses has on the overall assumed rate of return. The long-term expected rates of return on plan investments were determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These returns are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentages and by adding expected inflation and deducting expected investment expenses. Additional information on the target allocation and projected arithmetic real rate of return for each major asset class is available in the OCERS' Annual Comprehensive Financial Report for the year ended December 31, 2022.

Introduction

The Transportation Corridor Agencies (TCA) are comprised of the Foothill/Eastern Transportation Corridor Agency (F/ETCA) and the San Joaquin Hills Transportation Corridor Agency (SJHTCA). For nearly 30 years TCA has planned, financed, constructed and now operates 420 lane miles of toll roads in Orange County, known as The Toll Roads. The Toll Roads are comprised of State Routes 73, 133, 241 and 261. The roads provide important links in the county and regional transportation network and ensure a safe, reliable commute for motorists.

The Agencies are committed to implementing improvements to The Toll Roads that will allow continued efficient operation. In order to maintain free flow traffic conditions on The Toll Roads, various roadway improvements may be required to keep pace with changing traffic conditions, land uses and demographics. Anticipated system improvements are reflected in the projects that constitute the Agencies' Capital Improvement Plan (CIP).

The Agencies' adopted Strategic Plan outlines the goals and approaches used to develop the CIP project scopes and delivery schedules. Specifically, the CIP supports the Strategic Plan goals for regional mobility and incorporating forward-looking solutions to address increased demand while keeping toll rates low. Project considerations that will be core to the Agencies' approach include the use of innovative technologies that enhance safety and increase efficiency; reuse of existing infrastructure and reduced capital expenditures; enhancements and streamlining of the project delivery process; and alignment with statewide environmental objectives.

The CIP is updated annually to document new projects; changes to existing project status, costs and schedules; and provide a general summary of the projects completed to date. The Fiscal Year 2024 (FY24) CIP represents an approximately \$511 million investment for the F/ETCA and approximately \$37 million investment for the SJHTCA in current capital projects through 2030. The CIP also outlines conceptual capital projects under study that represent potential future on-system investments.

In alignment with the Agencies' Strategic Plan, ongoing traffic studies are performed, as needed, to assess the needs and implementation schedules for system improvements. The traffic forecasts are used to identify projects and develop implementation strategies for the projects needed to maintain free flow conditions on The Toll Roads. The traffic forecasts are also being used to periodically evaluate project implementation schedules. Updates are reflected in each annual CIP.

241/91 Express Connector F/ETCA

Summary

The 241/91 Express Connector Project will construct a tolled median-to-median connector with a single lane in each direction between SR 241 and the 91 Express Lanes, carrying northbound SR 241 traffic to the eastbound 91 Express Lanes and westbound 91 Express Lanes traffic to the southbound SR 241. The project will also extend a fifth northbound lane from the Santiago Creek Bridge to SR 91.

Project Status

Final design is in progress.

Anticipated Completion

2027

Total Project Cost

\$423 million

The project is fully funded by the F/ETCA from cash reserves.

Project Description

The 241/91 Express Connector Project will provide a median-to-median tolled connector between the 91 Express Lanes and SR 241. The project will improve traffic operations on northbound SR 241 and SR 91 general-purpose lanes while also maintaining reliable travel times and free flow speeds during peak periods in the 91 Express Lanes.

Planning/Engineering

Preliminary engineering concepts for a tolled direct connector between SR 241 and the 91 Express Lanes were developed by the F/ETCA and Caltrans and used for the environmental analysis. The 91 Express Lanes Extension and SR 241 Connector Feasibility Study were completed in March 2009. A Project Study Report-Project Development Support document was completed in January 2012. The Draft Environmental Document was circulated for public review from November 7, 2016, to January 9, 2017. The Final Environmental Document was signed by Caltrans and circulated for public review. A Record of Decision was approved in early 2020. Final design began in Summer 2020.

The project is being implemented by the F/ETCA (project sponsor) in coordination with Caltrans, Orange County Transportation Authority (OCTA) and Riverside County Transportation Commission (RCTC). This multi-agency team is currently developing agreements to define roles and responsibilities for the maintenance and operations of the project.

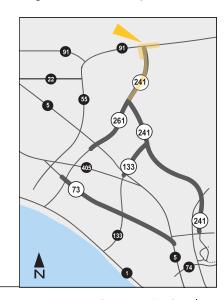

Right-of-Way

Right-of-way acquisition from the City of Anaheim has been identified for the project.

Construction

Construction completion is anticipated by 2027. Caltrans will advertise, award and administer the construction contract. The project construction is aligned with other improvements

in the area including the 15/91 Express Lanes Connector and 71/91 Interchange Project.

Adopted June 8, 2023 Current: F/ETCA | 5

SR 73 Catalina View Improvements

Summary

The SR 73 Catalina View Improvements Project consists of using the existing median to provide one additional lane in each direction through the Catalina View Mainline Toll Point (resulting in four mainline lanes and one truck climbing lane) and making operational improvements on SR 73 leading up to the mainline toll point in each direction.

Project Status

Preliminary engineering and environmental revalidation is in progress.

Anticipated Completion

2030

Total Project Cost

\$36.9 million

The project will be fully funded by the SJHTCA from cash reserves.

Project Description

Operational conditions have degraded on SR 73 in the mainline lanes during the morning and afternoon peak periods in the vicinity of the Catalina View Mainline Toll Point. As traffic volumes continue to grow over the next decade, operational conditions will continue to degrade unless otherwise addressed via higher toll rates or through delivery of this project. The project will add a fourth lane through the Catalina View Mainline Toll Point and make operational improvements from SR 133 to Sand Canyon Bridge in the northbound direction and from the Newport Coast Drive on-ramp to the Laguna Canyon Road off-ramp in the southbound direction. These improvements are consistent with the originally envisioned and approved SR 73.

Planning/Engineering

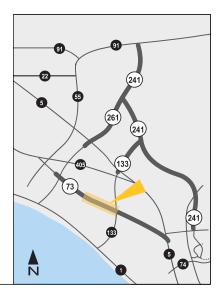

Activities to advance the project approval and environmental revalidation were initiated in 2022. Final design will commence upon completion of environmental revalidation.

Right-of-Way

No right-of-way impacts are anticipated.

Construction

Construction completion is anticipated by 2030.

Adopted June 8, 2023 Current: SJHTCA | 6

SR 241 Loma Improvements

Summary

The SR 241 Loma Improvements Project provides lane improvements in each direction on SR 241 from the junction of SR 133 to north of SR 261. The project uses the existing roadway footprint to add one lane in each direction and shift southbound traffic onto the existing graded roadbed.

Project Status

Final design is anticipated to restart in FY24.

Anticipated Completion

2029

Total Project Cost

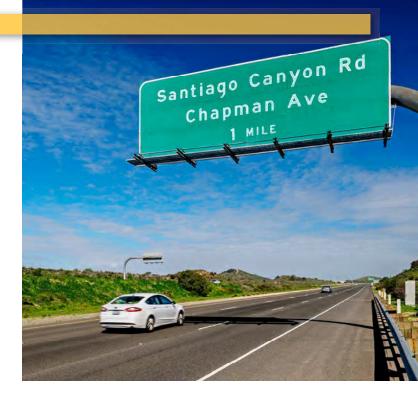

\$87.4 million

The project will be fully funded by the F/ETCA from cash reserves.

Project Description

Operational conditions are anticipated to degrade by 2030 on SR 241 during the morning and afternoon peak periods between the SR 133 and SR 261. As traffic volumes grow, operational conditions will continue to degrade unless otherwise addressed through delivery of this project or via higher toll rates.

The SR 241 Loma Improvements Project will add one lane in each direction and shift southbound traffic onto the separated roadbed between the junction with SR 133 and Santiago Creek Bridge, just north of the junction with SR 261, to improve traffic operations. These improvements are consistent with the originally envisioned and approved SR 241.

Planning/Engineering

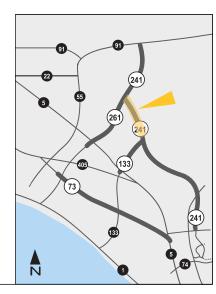

A Project Study Report/Project Report (PSR/PR), an addendum to the Eastern Transportation Corridor environmental document and permits were prepared for the project. The F/ETCA initiated final design of the project in March 2020 and the project was put on hold in April 2020. Final design is anticipated to restart in FY24.

Right-of-Way

No right-of-way impacts are anticipated.

Construction

Construction completion is anticipated by 2029.

Adopted June 8, 2023 Current: F/ETCA 7

SR 261 Improvements

Summary

The SR 261 Improvements Project would consist of using the existing median to add Iane(s) on SR 261 between the southerly terminus of the SR 261 (at Walnut Avenue Bridge) and the SR 241 to support free-flowing conditions.

Project Status

Project initiation is on hold for further assessment of need and timing.

Anticipated Completion

TBD

Total Project Cost

TBD

Project Description:

Ongoing traffic studies indicate that, as traffic volumes continue to grow over the next decade, operational deficiencies may be experienced in this segment in the future. This condition could be addressed via higher toll rates or through delivery of this project. The SR 261 Improvements project would add lane(s) in each direction between Walnut Avenue and SR 241 interchange to improve traffic operations. These improvements would be consistent with the originally envisioned and approved SR 261.

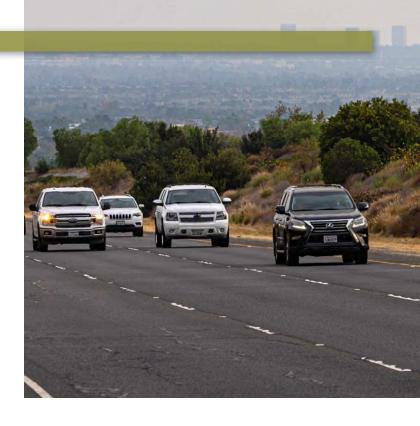

Planning/Engineering:

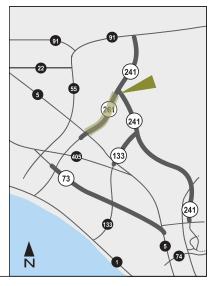

Development of preliminary alternatives and analysis of operational improvements, costs and project delivery schedule is on hold.

Right of Way:

No right-of-way impacts are anticipated.

Construction:

SR 241 Improvements, Santa Margarita to Bake F/ETCA

Summary

The SR 241 Improvements Project would add one lane in the southbound direction from approximately Santa Margarita Parkway to Bake Parkway.

Project Status

Final design is on hold for further assessment of need and timing.

Anticipated Completion

TBD

Total Project Cost

TBD

Project Description

The SR 241 Improvements Project would add one lane in the southbound direction for 4.8 miles, from south of the Melinda Road Bridge to north of the Bake Parkway Bridge, Project includes the widening of the northbound and southbound Upper Oso Reservoir and the Aliso Creek Bridges and construction of limited pavement widening in the northbound direction. These improvements would be consistent with the originally envisioned and approved SR 241.

Planning/Engineering

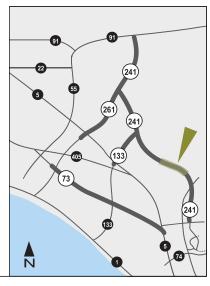

An addendum to the original Foothill Transportation Corridor — North environmental document, Final Supplemental EIR No. 423, March 1990, was completed in 2011. Final design was initiated in 2007 and put on hold in 2011 for further assessment of need and timing.

Right-of-Way

No right-of-way impacts are anticipated.

Construction

SR 73 Glenwood Interchange (Phases 2 & 3) SJHTCA

Summary

The Glenwood Interchange Project, Phase 2, will add a southbound on-ramp and northbound off-ramp at the Glenwood Drive interchange with SR 73. Phase 3 is a future expansion and reconfiguration of the northbound on-ramp from Glenwood Drive combined with braiding the northbound on-ramp with the El Toro Road off-ramp.

Project Status

Project initiation is on hold for further assessment of need and timing.

Anticipated Completion

TBD

Total Project Cost

TBD

Project Description

Phase 1 was constructed in 2003. Phase 2 adds ramps south of Glenwood Drive bridge to complete the interchange movements for the remaining directions of travel. Phase 3 braids Glenwood Drive northbound on-ramp with northbound El Toro Road off-ramp movements to provide for intersection and mainline operational benefits. These improvements would be consistent with the originally envisioned and approved SR 73.

Planning/Engineering

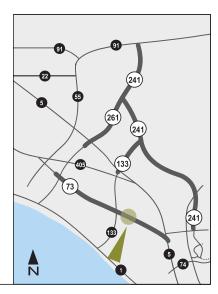

Conceptual Phase 2 and Phase 3 interchange configurations were prepared during the design phase of the SR 73 Initial Build. Development of preliminary alternatives and analysis of operational improvements, costs and project delivery schedule have not yet commenced.

Right of Way

No right-of-way impacts are anticipated.

Construction

Toll Booth Removals and Toll Plaza Reuse F/ETCA & SJHTCA

Summary

The Toll Booth Removals and Toll Plaza Reuse Project consists of removing the remaining toll booths and related equipment at toll points throughout the system, researching possible reuse of the toll booths and exploring options for reuse of the toll plazas and buildings.

Project Status

Conceptual planning has not yet commenced.

Anticipated Completion

TBD

Total Project Cost

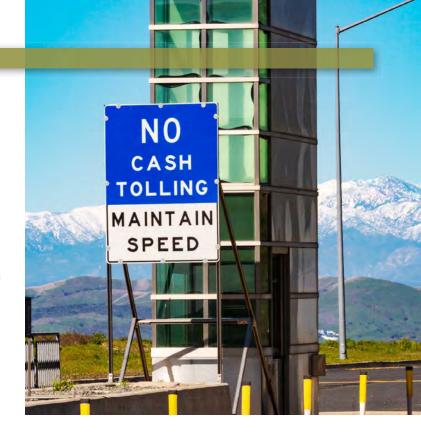

F/ETCA TBD | SJHTCA TBD

Project Description

With the transition to all-electronic toll (AET) collection on The Toll Roads in 2014, cash toll booths are no longer required. The toll booths and related equipment on multilane ramps were removed in 2017 as part of the Toll Booth Removals Phase 1 Project. The removal of the remaining toll booths and related equipment at single lane ramp toll points (Toll Booth Removals Phase 2) and mainline toll points (Toll Booth Removals Phase 3) are still pending.

The Agencies' 10 mainline toll plazas represent significant investments in assets and right-of-way that have been underutilized since the conversion to AET. These assets provide opportunities to explore infrastructure enhancements that could leverage the physical footprint of the toll plazas to increase customer value or ridership of the roads.

A study is proposed to research possible reuse options for the remaining toll booths and explore options for reuse of the toll plazas and buildings throughout the system. The recommendations developed as part of the study will be brought before the F/ETCA and the SJHTCA Boards of Directors for further action.

Planning/Engineering

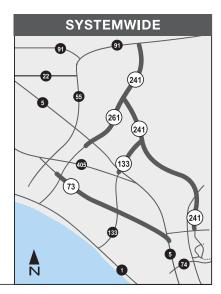

A Toll Plaza Facilities Reuse Study was conducted in 2016 to explore the feasibility of various reuses for the toll plazas and booths throughout the system. No preliminary concepts have been developed yet from the study.

Conceptual planning has not yet commenced.

Right-of-Way

No right-of-way impacts are anticipated.

Foothill/Eastern Transportation Corridor Agency

Project	Anticipated Completion	Total Project Cost	Description
F/ETCA SRs 133, 241, 261, from SR 91 to SR 241/ FTC-N (at Portola Parkway-Irvine) and I-5, (Eastern Transportation Corridor) (ETC), Future On-System Improvements SR 241, from Oso Parkway to ETC (at Portola Parkway- Irvine), (Foothill Transportation Corridor — North) (FTC-N), Future On-System Improvements	N/A	N/A	Over the past two decades, The Toll Roads have become an integral part of the regional transportation system in Orange County. Customer surveys show that people depend on The Toll Roads for reliable travel times. As regional travel demand grows and operations of the regional transportation system degrades, portions of The Toll Roads can also be effected. In order to preserve dependable travel times, roadway improvement projects become warranted. The Toll Roads were designed to be expanded with additional lanes as traffic demands and volumes grow. Space is also provided within the median for either additional travel lanes and/or potential transit facilities as the County of Orange and surrounding communities grow. Since the original construction of the corridors, there have been changes to several key factors that influence travel demand. These factors include residential and non-residential development changes, shifts in population and employment, changes to the arterial highway system and changes in commuter behavior. Project Status The Agencies are using the ongoing traffic studies to understand the specific areas and segments of The Toll Roads system where improvements will be needed in order to maintain free flow conditions. Separate projects with implementation schedules are included in each annual update of the CIP as determined by the Agencies.

Foothill/Eastern Transportation Corridor Agency

		Initial Projects
Project	Year	Description
F/ETCA Eastern Transportation Corridor (ETC) and Foothill Transportation Corridor – North (FTC-N) Initial Builds	1993 1998	Construction of 133, 261 and 241 Toll Roads which extend from SR 91 in the north to I-5 in the west, the Laguna Freeway (SR 133) to the southeast and Oso Parkway to the south. The initial approximately 34.1-mile project included the purchase of right-of-way and construction of two to three mainline lanes, plus climbing and auxiliary lanes with sufficient median to add additional lanes and/or transit later.
	E	nhancements to the Initial Projects
Project	Year	Description
F/ETCA SR 241 Banderas Bridge Overcrossing	2002	Construction of a new SR 241 overcrossing between Antonio Parkway and Santa Margarita Parkway. The project was sponsored by the City of Rancho Santa Margarita to provide improved traffic circulation within the city. The F/ETCA contributed \$1.22 million to project costs.
F/ETCA Santa Margarita Parkway Northbound On-Ramp Widening	2005	Addition of a second lane to the Santa Margarita Parkway Northbound on-ramp to address high peak-hour traffic volumes. Project included widening the 1,500-foot long northbound Arroyo Trabuco Creek Bridge to the ultimate corridor configuration.
F/ETCA Arroyo Trabuco Creek Southbound Bridge Widening	2005	Widening of the southbound Arroyo Trabuco Creek Bridge to its ultimate corridor configuration during the widening of the Santa Margarita Parkway northbound on-ramp thereby allowing both northbound and southbound structures to be widened to their Ultimate Corridor width at the same time. This strategy allowed only one disruption of the Arroyo Trabuco Creek below the bridge. The project was designed and constructed including the addition of a second exit lane to Santa Margarita Parkway.
F/ETCA SR 241 Northbound Widening, Arroyo Trabuco Creek to Bake Parkway	2003	Addition of one lane in the median of northbound SR 241 from Arroyo Trabuco Creek to Bake Parkway including the widening of five twin northbound and southbound bridges (Portola Parkway South Undercrossing (UC), Serrano Equestrian UC, Lake Forest Dr. UC, Bake Parkway UC, Melinda Road UC) to their Ultimate Corridor configuration.

Foothill/Eastern Transportation Corridor Agency

	Enhanc	cements to the Initial Projects (continued)
Project	Year	Description
F/ETCA SR 241 Tomato Springs Toll Plaza Third FasTrak Lanes	2004	Addition of one lane in each direction between NB SR 241/ SB SR 133 connector and Portola Parkway (North) Overcrossing. These lanes were added to address increasing traffic volumes and FasTrak® usage at this location. Project included the reconfiguration of the lane delineation between the mainline toll point and the adjacent SR 133 interchange to encourage FasTrak as the predominant toll payment method.
F/ETCA Landscaping Enhancements	2004	Installation of landscaping enhancements on SR 241 and SR 261 Toll Roads.
F/ETCA SR 133 Widening Merge/Diverge Project, I-5 to SR 241	2005	Addition of one mixed flow lane in each direction from I-5 to SR 241 along with median guardrail for most of the 2.5-mile project length.
F/ETCA Windy Ridge FasTrak Lane Widening	2009	Addition of a third FasTrak lane in each direction in the median of SR 241 through the Windy Ridge Mainline Toll Point from south of the Southern California Edison (SCE) Wildlife Undercrossing (UC) to north of the Windy Ridge Wildlife UC (3 miles). SCE UC southbound bridge and Windy Ridge UC northbound bridge built to their ultimate corridor configuration.
F/ETCA All-Electronic Tolling (AET)	2014	Conversion of toll collection facilities to all-electronic-toll collection. Project included various modifications to mainline toll points and signage. Additionally, the project included removal of toll booths and related equipment on multi-lane ramps where traffic passed on both sides of the existing toll booths.
F/ETCA Wildlife Protection Fence	2016	Construction of six miles of wildlife protection fence along the northbound and southbound lanes of SR 241 from the Chapman/Santiago Canyon Road interchange to SR 91.

Foothill/Eastern Transportation Corridor Agency

	Enhanc	ements to the Initial Projects (continued)
Project	Year	Description
F/ETCA Los Patrones Parkway, Oso Parkway to Cow Camp Road (in partnership with the County of Orange and Rancho Mission Viejo)	2020	Los Patrones Parkway is a four-lane divided roadway that creates a 4.5-mile, north-south link from the southerly terminus of SR 241 between Oso Parkway and Cow Camp Road. The project includes a multi-purpose pathway trail for pedestrians and cyclists from Oso Parkway to Chiquita Canyon Drive. Rancho Mission Viejo (RMV) was the project sponsor with the County of Orange as the lead agency. An agreement was required by the County of Orange between RMV and the F/ETCA to address funding, phasing and construction of Los Patrones Parkway including designing the roadway as a high speed, unsignalized transportation corridor. The F/ETCA provided funding for the right-of-way, design and a portion of the construction pursuant to the County of Orange Major Thoroughfare and Bridge Fee Program. The F/ETCA has contributed a total of \$55.5 million to date.
F/ETCA Oso Parkway Bridge	2021	Constructed a bridge structure at Oso Parkway and mainline roadway gap closure between the southern terminus of SR 241 and the northern terminus of Los Patrones Parkway to provide users of Los Patrones Parkway direct access to and from the 241 Toll Road under the new bridge. Project also improved bicycle and pedestrian access on Oso Parkway through the interchange.
F/ETCA Signage Enhancements	2022	Updated sign messaging throughout The Toll Roads and along the approaches from the connecting highways and arterials to provide consistent messaging that notifies drivers they are entering an allelectronic toll collection facility, explains how tolls can be paid, and incorporates current California Manual on Uniform Traffic Control Devices (CA MUTCD) recommendations for toll road signage.
F/ETCA NB 241 Channelizers at Windy Ridge	2022	Installed of over 800 channelizers for a distance of 1-mile on northbound SR 241 between the No. 2 and No. 3 lanes approaching SR 91. The channelizers separate traffic heading eastbound on SR 91 from those heading westbound on SR 91 and are intended to deter vehicle queue-jumping on this stretch of SR 241. The project is an interim condition that will be replaced by permanent improvements proposed as part of the 241/91 Express Connector Project.

San Joaquin Hills Transportation Corridor Agency

		Initial Projects
Project	Year	Description
SJHTCA San Joaquin Hills Transportation Corridor (SJHTC) Initial Build	1996	Construction of an approximately 17.4-mile extension of SR 73 from Jamboree Road in the City of Newport Beach to I-5 in San Juan Capistrano as a tolled facility. The initial project included three lanes in each direction, plus climbing and auxiliary lanes with sufficient median to add additional lanes and/or transit later. Additionally, constructed the extension and realignment of Ford Road (completed 1995). This 1.65-mile project extended and realigned Ford Road (now known as Bonita Canyon Drive) between MacArthur Boulevard and Newport Coast Drive.
	Е	nhancements to the Initial Projects
Project	Year	Description
SJHTCA SR 73 Glenwood Interchange (Phase 1)	2003	Construction of the southbound off-ramp and northbound on-ramp at Glenwood/Pacific Park Drive on SR 73. Work was performed under a design-build contract.
SJHTCA Landscaping Enhancements	2004	Installation of landscaping enhancements at interchanges along SR 73.
SJHTCA SR 73 Northbound Roadway Widening	2009	Addition of a fourth lane to the northbound mainline in two locations: (1) from the former lane drop north of Aliso Viejo Parkway to north of the Laguna Canyon Road on-ramp, a distance of 2.4 miles, and (2) from the Catalina View Mainline Toll Point cash lane merge, to the MacArthur Boulevard off-ramp, a distance of 3.3 miles. Ford Road/Bonita Canyon Drive Undercrossing (UC) northbound bridge, Newport Coast Drive UC northbound bridge, and Wildlife UC No. 2 northbound bridge built to their ultimate corridor configuration.
SJHTCA All-Electronic Tolling (AET)	2014	Conversion of toll collection facilities to all-electronic-toll collection. Project included various modifications to mainline toll points and signage. Additionally, the project included removal of toll booths and related equipment on multi-lane ramps where traffic passed on both sides of the existing toll booths.

San Joaquin Hills Transportation Corridor Agency

Enhancements to the Initial Projects (continued)		
Project	Year	Description
SJHTCA Signage Enhancements	2022	Updated sign messaging throughout The Toll Roads and along the approaches from the connecting highways and arterials to provide consistent messaging that notifies drivers they are entering an allelectronic toll collection facility, explains how tolls can be paid, and incorporates current California Manual on Uniform Traffic Control Devices (CA MUTCD) recommendations for toll road signage.
